C. PROJECT ADMINISTRATION

1. Approve the Following Grant Applications:
- WCAG-009 Wetland Restoration Near Granite Lake (\$143,750)
- TOWN-004 Buffalo Township Surface Transportation Grant (\$49,339)
Approve an increase to the allocation for Water Quality Improvement Projects from \$170,967.55 to \$314,717.55.

V. TIMED AGENDA ITEMS**A. 9:05 AM- MARC MATTICE, ADMINISTRATION**

1. Approve Resolution Recognizing National Work Zone Awareness Week in Wright County April 15-19, 2024.

Assistant County Administrator Marc Mattice said that this is an annual request from the Property Services Safety Committee. Wright County has a significant number of employees working on the road and the resolution helps bring attention and awareness to the need to be safe in work zones.

Kaczmarek moved to approve the resolution recognizing National Work Zone Awareness Week in Wright County April 15-19, 2024. The motion was seconded by Holland. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

B. 9:10 AM- CHAD HAUSMANN, HIGHWAY

1. Enter, by Resolution, Into Cooperative Construction Agreement 1055255 with State of Minnesota Department of Transportation

County Highway Engineer Chad Hausmann said that this agreement is for I-94 construction, affecting CSAH 19.

Holland moved to approve the resolution to enter into Cooperative Construction Agreement 1055255 with the State of Minnesota Department of Transportation. The motion was seconded by Diedrick. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

C. 9:15 AM- HEALTH & HUMAN SERVICES

1. HEALTH & HUMAN SERVICES CONSENT AGENDA

Holland moved to approve the consent agenda. The motion was seconded by Diedrick. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

- i. Approve OSAC Recommendation to Remove the Following Members from the Opioid Settlement Advisory Council (OSAC):
 1. Ann Bajari - Effective March 2024. Ann Withdrew Her Membership to Make Room for Others with Current Expertise About the System and Issues.
 2. Richard Ward - Due to Inability to Fully Commit to Group and Regularly Attend Meetings.
 3. Patrick Budke - Due to Inability to Fully Commit to Group and Regularly Attend Meetings.
 4. Mark Hoffman - Due to Inability to Fully Commit to Group and Regularly Attend Meetings.
 5. David Miller - Due to Inability to Fully Commit to Group and Regularly Attend Meetings.
 6. Todd Jorgensen - To Free Up Spots for Other Members. Served as a Backup to Eric Kunkel.

With the Removal of These Individuals, the Council Will Sit at 16 Members. Member Recruitment Will Begin in April 2024 by Chief Strategists.

2. HEALTH & HUMAN SERVICES TIMED AGENDA

- i. Adopt Resolution HHS 24-03 Accept March 2024 Donation

Health & Human Services Director Jami Goodrum said that the donation is from Cokato Community Chest to be applied to Wellness on Wheels.

Kaczmarek moved to adopt a resolution accepting the March donation. The motion was seconded by Holland. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

- ii. HHS Director's Comments:
 1. Support MACSSA Recommendations for Urgent Legislative Action to Expand Hospital Capacity Specifically for People with Court-Ordered Mental Health Treatment
 2. DHS Response to PATH Proposal
 3. Child Support State Performance Report for 2023 FFY

4. COVID Recovery RFP5. Upcoming Laundry Events Sponsored by Medica Grant – April 2 & April 96. Proclaim April 1-7 as Public Health Week**1. Support MACSSA Recommendations for Urgent Legislative Action to Expand Hospital Capacity Specifically for People with Court-Ordered Mental Health Treatment**

Goodrum said that proposed legislation would expand the mental health 48-hour rule. When Wright County has someone at a facility and there is not an available bed, the county pays for 100 percent of the cost. Wright County spent \$71,000 in 2022 and \$25,000 in 2023. Goodrum said that this is an issue locally and statewide and asked for commissioner support.

2. Department of Human Services (DHS) Response to Projects for Assistance in Transition from Homelessness (PATH) Proposal

Goodrum said that Wright County belongs to CommUNITY Adult Mental Health Initiative (CAMHI), which received a PATH grant for \$750,000 to be used for temporary housing within the four-county members of CAMHI. HHS will be looking for a housing coordinator in the future, that will be funded by the grant. Diedrick asked if this role could be filled by current staff. Goodrum said that there are likely portions of current initiatives that could qualify but would need to be looked into. Goodrum said that CAMHI also has increased funding by \$1.8 million, in addition to the current \$1.2 million, to go towards adult mental health needs in the four-county area.

3. Child Support State Performance Report for 2023 FFY

Goodrum referenced the Child Support State Performance Report and said that Wright County outperformed the statewide performance in all five areas.

4. COVID Recovery RFP

Goodrum said that the COVID Recovery Committee was formed to disburse recovery dollars via Request for Proposal (RFP). The committee will be accepting RFPs a second time, seeking to support efforts for community wellbeing. There is \$300,000 to be disbursed, with an allowance of \$30,000 per request.

5. Upcoming Laundry Events Sponsored by Medica Grant – April 2 & April 9

Goodrum said that the events are being held in Buffalo and Monticello.

6. Proclaim April 1-7 as Public Health Week

Goodrum requested the board to proclaim April 1-7, 2024 as Public Health Week to recognize the contributions of Public Health in improving the health of people of the United States and achieving health equality.

7. State Opioid Advisory Council Meeting

Goodrum said that Wright County will be hosting the State Opioid

Advisory Council and invited the commissioners to attend.

Holland moved to proclaim April 1-7, 2024 as Public Health Week in Wright County. The motion was seconded by Diedrick. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

D. 9:30 AM- PUBLIC HEARING, LARGE ASSEMBLIES

Civil Division Chief Greg Kryzer said that a public hearing is being held regarding ordinance amendment number 24-1, a request to amend chapter 91, large assemblies. Kryzer outlined the proposed changes to include amendments to definitions relating to the legalization of cannabis in Minnesota, permit requirements, public telephones, vehicle barriers, ambulance requirements, application timeline, and procedure of denial. Diedrick said that she would like to reiterate that the 90-day timeline for applications will be strictly enforced so applicants are aware of the change.

1. Public Hearing - Amendment to Wright County Code of Ordinances, Large Assembly.

Commissioner Nadine Schoen opened the public hearing at 9:35 a.m. The public hearing closed at 9:36 a.m. No members of the public were present to comment for the record.

2. Adopt By Resolution Large Assembly Ordinance 24-01

Holland moved to adopt ordinance amendment 24-1. The motion was seconded by Kaczmarek. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

Diedrick moved to adopt a resolution approving summary language for publication of ordinance 24-1 amending the Wright County code of ordinance article 1, chapter 91, large assemblies. The motion was seconded by Kaczmarek. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

E. 9:35 AM- BARRY RHINEBERGER, PLANNING & ZONING

1. Accept The Determination That Valley Paving Sand and Gravel Mine in Monticello Township, Wright County, Does Not Need An Environmental Impact Statement (EIS).

Planning & Zoning Administrator Barry Rhineberger said that Valley

Paving is proposing an expansion of an existing sand and gravel extraction onto an 80-acre parcel in Monticello Township. The Environmental Assessment Worksheet (EAW) process was mandatory, as it involved more than 40 acres of total disturbance. The EAW was completed and published with the Minnesota Environmental Quality Board in February 2024, with all comments received in March 2024. The EAW indicated a negative declaration of the need for an EIS.

Diedrick moved to accept the determination that Valley Paving Sand and Gravel mine in Monticello Township does not need an EIS. The motion was seconded by Holland. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

VI. ITEMS FOR CONSIDERATION

A. ADMINISTRATION

1. Adopt Resolution Declaring April as County Government Month

County Administrator Lee Kelly said that the National Association of Counties (NACo) has designated April as County Government Month since 1992 and this is the first year that Wright County is looking to adopt April as County Government Month.

Holland moved to adopt a resolution declaring April as County Government Month. The motion was seconded by Diedrick. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

2. Discuss Topics for April 9 Workshop

Schoen asked to add a discussion related to the impervious surfaces ordinance. Kryzer suggested a Committee of the Whole (COTW) due to the amount of data that Planning & Zoning would need to gather and provide. Kelly said that it would be added to the meetings to schedule item for the workshop. Kaczmarek asked to add performance-based bidding for ditch work as a workshop topic.

Schoen asked to schedule a COTW to discuss the Wright County Economic Development Partnership (EDP) and requested attendance of the EDP Board President and Vice President. A COTW was scheduled for 9:30 a.m. Monday, April 8.

VII. ADJOURNMENT

Holland motioned to adjourn the meeting. The motion was seconded by Kaczmarek. The motion passed 4-0.

For: 4; Against: 0; Abstain: 0; Absent: 1; Recused: 0

The meeting adjourned at 9:47 a.m.

MEETING MINUTES
COMMITTEE OF THE WHOLE
APRIL 8, 2024
DATE APPROVED: DRAFT

Tina Diedrick	District 1
Darek Vetsch	District 2
Jeanne Holland	District 3
Nadine Schoen	District 4
Michael Kaczmarek	District 5

Members Present: Tina Diedrick, Jeanne Holland, Michael Kaczmarek, Nadine Schoen, Darek Vetsch,

Others Present: Lee Kelly, Clay Wilfahrt, Jolene Foss, Missy Meidinger, Patrick Baumgard, Randy Voeller, Scott Johnson, Phil Kern, Brian Koslofsky, Gene Janikula, Marc Weigle, Kelly Hinnenkamp, Mike Melton, Sheila Zachman, Chris Barta

I. Wright County Economic Development Partnership (WCEDP) Discussion

Commissioner Darek Vetsch opened the meeting and referred to Commissioner Nadine Schoen, who requested the meeting. Schoen said that she is looking to have more of a discussion on priorities with the group as a whole. Due to open meeting law, it is difficult to discuss the priorities of all county commissioners collectively. Vetsch said that he would like to have a better framework to manage and track priorities. COVID put WCEDP in a hard place to come out of and a lot of good discussions have been had and progress has been made in the last 12 months.

Commissioner Jeanne Holland said that this has been a very frustrating process. Wright County gives WCEDP a majority of its funding and the commissioners are not given clear answers to questions asked. Vetsch said that as a member of the WCEDA board, there needs to be a better way to articulate information back to all the county commissioners.

Schoen asked to utilize this meeting to set priorities to get the Wright County Board of Commissioners and the WCEDA Board on the same page. Commissioner Tina Diedrick said that the WCEDP has been working well for the past 30 years and confirmed if the message that she was hearing from her fellow commissioners is that Wright County still wants to fund the WCEDP, they just want a say in the priorities of the organization.

Holland suggested the idea of strategic planning. WCEDP Board Member Patrick Baumgard said that he agrees with Vetsch, the WCEDP did lose its way a little during COVID. The long-term director also left during that time and the WCEDP is in the process of realigning its priorities. Baumgard said that the WCEDP is shifting to be more sales-focused and likes the idea of strategic planning and suggested that the two parties meet on a quarterly basis to continue to move forward. Schoen and Holland agreed.

Vetsch said that the following would be the top five Wright County's priorities:

1. Business Recruitment/Retention
2. Leveraging State & Federal Grant & Loan Opportunities
3. Building Small City Assistance
4. Entrepreneurship Development and Assistance
5. Career Development & Training

Baumgard said that all five items align with the WCEDP board priorities. Diedrick said that she would like to move forward with full, annual funding so that it is not used as leverage. Vetsch agreed and said that commissioners are making counterproductive decisions related to cash flow, making it very difficult for the WCEDP to work on future initiatives.

Commissioner Michael Kaczmarek said that the intent of this meeting was to answer any questions related to the WCEDP, not to suggest changing the funding method previously agreed upon. The Historical Society did not have a

meeting with the commissioners prior to its funding review. Kaczmarek said that the WCEDP operates more in line with a business that has been established for one year, not a 30-year organization.

Holland said that the Historical Society has made great improvements to its operation, but she has not seen the same change with the WCEDP and that she needs to see progress before the budget season. With the new priorities established, hopefully measurable progress can be made. Diedrick disagreed and said that she believes that measurable data has been put together and if expectations aren't being met, they can be addressed during the upcoming budget sessions instead of leveraging funds that have already approved in the 2024 budget.

RECOMMENDATION: Discuss the County's 2024 WCEDP funding at the Tuesday, April 16 Wright County Board Meeting.

The meeting adjourned at 10:19 a.m.

Committee of the Whole minutes submitted by Caitlin Chovan, Administration Office Manager

BOARD WORKSHOP MINUTES
BOARD OF WRIGHT COUNTY COMMISSIONERS

APRIL 9, 2024

DATE APPROVED: DRAFT

Tina Diedrick	District 1
Darek Vetsch	District 2
Jeanne Holland	District 3
Nadine Schoen	District 4
Michael Kaczmarek	District 5

Members Present: Tina Diedrick, Jeanne Holland, Michael Kaczmarek, Nadine Schoen, Darek Vetsch

Others Present: Carla Asfeld, Caitlin Chovan, Matt Detjen, Lee Kelly, Heather Lemieux, Brian Lutes, Marc Mattice, Lindsey Meyer, Ryan Miles, Karen Pundsack, Barry Rhineberger, Matt Tourville, Clay Wilfahrt

THESE MINUTES ARE IN DRAFT FORMAT AND REQUIRE APPROVAL BY THE COUNTY BOARD

Commissioner Darek Vetsch opened the meeting at 9:00 a.m.

1. Schedule Meetings as Needed

Committee of the Whole: Impervious Surfaces and Ditch 10
 Scheduled for 8:30 a.m. Monday, April 15, 2024

Closed Session: Labor Negotiations
 Scheduled for 10:00 a.m. Tuesday, May 7, 2024

RECOMMENDATION: Informational Only.

2. Legislative and Commissioner Updates

Commissioner Nadine Schoen provided an update on Senate File (SF) 4895 and House File (HF) 4987 affecting certain driver's license online knowledge testing provisions. License Center Supervisor Jessie Gadach testified at the April 8, 2024 Senate Transportation Committee hearing in support of SF4895. The bill was laid on the table for possible inclusion in the Omnibus Finance Supplemental Bill.

County Administrator Lee Kelly provided status updates on legislative items. The consensus of the board was to draft and send a letter of support of HF3922 and SF3866 affecting local government and private ambulance service aid provisions and one-time aid.

RECOMMENDATION: Informational Only.

3. Great River Regional Library Update

Great River Regional Library (GRRL) Executive Director Karen Pundsack and Kimball/Annandale Library Manager Carla Asfeld provided a 2023 GRRL update that included: GRRL's Mission, Vision, and Theory of Change; an overview of Wright County library statistics; library highlights; Wright County library stories; and statistics by Wright County library locations. Pundsack noted that GRRL continues to rebuild since the pandemic and has had steady growth of borrowers and increased attendance. In 2023, St. Michael had the largest growth of circulation, total borrowers, and new borrowers in 2023. Asfeld provided 2023 library highlights and stories that included: a partnership with the Diane and Alan Page TESTIFY collection; a partnership with EPIC to check out career cluster exploration kits; jigsaw puzzle tournaments; preschool Fridays; and interior updates. Pundsack noted that a review of GRRL's safety protocols, procedures, and staff training in collaboration with local law enforcement agencies is a project currently underway to ensure safety of staff and library visitors.

RECOMMENDATION: Informational Only.

4. Ehlers Quarterly Report And Economic Forecast

Ehlers, Inc. Senior Investment Advisors Ryan Miles and Matt Tourville presented to the board a review of Wright County's Investment Portfolio through Quarter 1 of 2024. The presentation included an economic update that included treasury rates, federal fund rates, unemployment, inflation, and manufacturing purchasing managers' index (PMI). The presentation also included the county's portfolio and performance that detailed activities, allocations, portfolio changes, asset classes, income, maturity schedules, and planned actions. Discussion was had and Vetsch requested that the next quarterly report presented have data on the debt service in comparison to the fund balance in which Miles and Tourville agreed to include.

RECOMMENDATION: Informational Only.

5. Recycling Task Force

Planning & Zoning Administrator Barry Rhineberger requested the creation of a Recycling Task Force. Rhineberger summarized the role of the task force, the makeup of task force members, and the purpose of the task force. Schoen and Commissioner Tina Diedrick agreed to serve as the two county commissioners on the task force.

RECOMMENDATION: Bring forward the creation of a Recycling Task Force with Diedrick and Schoen as county commissioner representatives for approval.

6. Building Advisory Group

Assistant County Administrator Marc Mattice requested the creation of a Wright County Facility and Facility Infrastructure Workgroup. The workgroup would also be known as the Building Advisory Group. Mattice summarized the background, purpose, and makeup of the advisory group members. Commissioner Jeanne Holland and Vetsch agreed to serve on the advisory group.

RECOMMENDATION: Bring forward the creation of a Wright County Facility and Facility Infrastructure Workgroup, also known as the Building Advisory Group, with Holland and Vetsch as county commissioner representatives.

7. Law Enforcement Training Center (LETC) Municipal Use Update

Assistant County Administrator Clay Wilfahrt summarized the background in preparing the LETC Municipal Use Agreement. The consensus of the board was to bring forward for approval at a future meeting.

RECOMMENDATION: Bring forward the Law Enforcement Training Center Municipal Use Agreement for approval.

8. Personnel Board of Appeals

Kelly summarized the role of the Personnel Board of Appeals, relevant state statute, history of the Personnel Board of Appeals service, and the county's past practice in appointing members. The consensus of the board was to post the Personnel Board of Appeal opening for a three-year term starting July 1, 2024 and running through June 30, 2027.

RECOMMENDATION: Informational Only.

9. Performance Based Bidding-Ditch Work

Commissioner Michael Kaczmarek provided a summary of conversations with constituents, other counties, the County Attorney's Office, and Ag & Drainage Coordinator Matt Detjen related to contract work for ditches. Kaczmarek requested an evaluation of the county's bidding and contracts to determine what updates could be made to improve project outcomes. Discussion was had on open bids, requests for proposal (RFP), contract language, project-based bonuses, liquidated damage, and retainers. The board consensus was for staff from legal and finance to move forward with updating RFPs to include state statute language for Responsible Contractor and updating the standard contract template to include project-based bonuses and liquidated damages.

RECOMMENDATION: Direct staff to develop and modify request for proposal and contract documents to include language such as responsible bidder, liquidated damage, and performance outcomes.

The meeting adjourned at 11:09 a.m.

DATE APPROVED: **DRAFT**

Members Present: Tina Diedrick, Darek Vetsch

Others Present: Matthew Fomby, Elizabeth Karels, Clay Wilfahrt, Caitlin Chovan, Lee Kelly, Lindsey Meyer, Heather Lemieux, John Holler

I. Border-to-Border Broadband Grant Round (note, applications are due May 10)

Project Administrator Elizabeth Karels provided updates on the following providers:

- Charter- Looking to expand to Rockford Township supporting broadband and using American Rescue Plan (ARP) funds. The project includes Wright County Compost Facility and portions of the project overlap with Midco and Arvig proposals.
- Midco- Overlap with Charter but does not include Wright County Compost Facility. Portions overlap with Arvig and Charter proposals.
- Arvig- Four projects with Albion Township that do need extra financial support. Buffalo Township/St. Michael proposal overlaps with Midco and Charter, and this is the first proposal received for Woodland Township.

There is still \$300,000 left in broadband allocation to support projects.

II. Post-ARP Funding Strategies

Post-ARP funds will no longer be available. Karels asked if the Broadband Committee could set aside funds or budget to support projects moving forward. Discussion was had on at least \$25,000 annually and possibly transferring funds from the Wright County Economic Development Authority (WCEDA.)

III. Broadband Committee Makeup

Discussion was had if there was interest in including townships and community members on the committee. The committee has agreed to keep the committee with county staff and commissioners for now.

RECOMMENDATION: *The consensus of the committee was to make the following recommendation:*

- *Negotiate with Charter and Midco projects areas to remove overlaps.*

Meeting Adjourned at 1:40 p.m.

Notes

BACKGROUND

This grant program is intended to help jurisdictions in Wright County complete projects that meet the County's objective of empowering the use of the land, property, and the environment while improving water quality. This grant aims to fund projects that will facilitate the restoration of abandoned aggregate pits or to provide an opportunity to help implement other unmet reclamation needs, conservation projects, or other environmental projects.

ELIGIBLE RECIPIENTS

Eligible recipients of this grant are county departments, cities, townships, school districts, and lake improvement districts (LIDs) within Wright County.

AMOUNT AVAILABLE

The County Board will fund up to ~~\$120,000~~ 80,000 annually to be allocated amongst applicants, for projects, with a maximum per applicant of \$40,000. Requests cannot exceed 80% of the total project cost. A maximum of \$40,000 will be considered for annual reimbursement per applicant.

FUNDING CRITERIA

Under Minnesota Statute 298.75 Aggregate Material Removal; Production Tax provides a special reserve fund which is hereby established for expenditure for the restoration of abandoned pits, quarries, or deposits located within the county. If there are no abandoned pits, quarries, or deposits located within Wright County, this special reserve fund shall be used for any other unmet reclamation needs, conservation projects, or other environmental needs.

The Aggregate Tax Committee shall consider all facts from all sources before submitting a recommendation to reimburse the applicant with funds from the *Aggregate Material Removal, Production Tax Special Reserve Fund*. Its judgment shall be based upon the criteria set below. The Committee may approve the application if all of the following considerations are satisfied.

1. The proposed use of funds is not detrimental to or will not endanger the county's public health, safety, comfort, convenience, or general welfare.
2. The proposed use of funds will be harmonious with the general and applicable to specific objectives of the County's Comprehensive Land Use Plan and Ordinance.
3. Restorations will be designed, constructed, operated, and maintained to be compatible with the existing or intended character of the general vicinity and will not change the essential nature of the area.
4. The proposed project will not be hazardous or disturb current or future land uses.
5. The proposed project will not result in the destruction, loss, or damage of a natural, scenic, or historic feature of significance within the County.
6. The finished rehabilitation shall restore the site to a condition whereby it can be utilized for the type of land use proposed to occupy the area after the project is completed.
7. The proposed reclamation must meet all specifications as outlined in the Wright County Zoning Ordinance.
8. The proposed use of funds meets the specifications outlined in MN Statute 298.75, Aggregate Material Removal, Production Tax.
9. The proposed project timeline is considered reasonable.
10. The project demonstrates a commitment to long-term sustainability by including provisions for ongoing monitoring and maintenance for a minimum of (10) ten years after completion of the project.
11. The applicant will provide a minimum of a 20% local match, in either "in-kind" Labor and Equipment or a cash match.
12. Within (30) thirty days, and not greater than (60) sixty of completion of the project, notice must be made to The Wright County Finance Director along with an invoice for reimbursement and association documentation for the requested funds.

WRIGHT COUNTY
MINNESOTA

Aggregate Material Production Tax Reserve Fund

Projects Related to Conservation or Environmental Needs:

Projects may include drinking water/wellhead protection, soil erosion, sedimentation reduction, restoration, protection, improvements to wildlife habitat, native prairies, forests, wetlands, environmental education, or projects that provide or improves access to nature-based environments.

TIMELINE

- ~~June~~ April – Open Applications
- ~~July 14, 2023~~ June 15 – Application Deadline
- ~~August~~ July – Committee Review And Recommendations To County Board
- Projects Must Be Completed Within 24 Months Of Award Notice

GRANT AGREEMENT

Each applicant that receives a grant award must enter into a grant agreement with Wright County governing the terms and conditions for using the grant funds. A grant award is not final until the applicant has signed the grant agreement. Failure to return a signed grant agreement within 30 days after issuance may result in the cancellation of an award and redistribution of grant funds to other projects.

Wright County reserves the right to deny, modify, and approve, or approve only selected portions of any application. In making an award decision, the County will prioritize the highest-scoring projects and will emphasize projects that provide the greatest benefit as determined by the County. The County Board's decision on whether to approve a grant application and the grant award amount to be issued shall be final.

DATE: APRIL 10, 2024

DATE APPROVED: DRAFT

Members Present: Michael Kaczmarek, Tina Diedrick, Lindsay Salo, Scott Deckert, Kevin Wilson (City of Cokato)

Members Absent: Joel Kjome (Rockford Township), Scott Peterson (Monticello Township)

Others Present: Marc Mattice, Caitlin Chovan, Lindsey Meyer

I. Review and Approve Application and Scoring Criteria

An overview of the committee was given for the new members. Discussion was had on the dollar amount the committee would like to offer for grants annually. There was agreement to offer up to \$80,000 for 2024 and will review for next year. The Aggregate Tax Fund has a current balance of \$349,598. There was discussion on funding criteria and longevity with a recommendation of 10 years for ongoing monitoring and maintenance of approved projects. The committee was all in agreement with the recommendation.

II. Set Timeline for 2024

- April – Open Applications
- June 15 – Application Deadline
- July 10 – Committee Review and Recommendation to County Board
- Projects Must Be Completed Within 24 Months of Award Notice

III. Schedule Meeting to Make Recommendations for Funding

Committee Meeting to be scheduled the last week in June to present recommendations at the July 16 County Board meeting.

Recommendation: Approve suggested Aggregate Material Production Tax Reserve Fund Offer and committee changes as outlined in the document.

Meeting adjourned at 10:20 a.m.

Hello!

Attached are the revised plans from Kevin Miller/Eastwood LLC

We received these March 25, 2024

Here is our motion from last night

Motion of reaffirmation of the zoning change, suggesting a rural PUD and that the Township will preliminarily accept the road if the project moves forward based on revised concept plans received on March 25, 2024 from Kevin Miller. Neumann/Hawkridge M/S/C Unanimous.

Let me know if you need anything else from me regarding this Barry

Thanks

Stephanie

4. **ESTATE DEVELOPMENT CORPORATION** c/o Tom Gonyea – New

LOCATION: 11126 Eastwood Avenue SE – The NW 1/4 as well as part of the NE 1/4 lying westerly of Rice Lake in Section 35, Township 118, Range 25, Wright County, MN. (Rice - Franklin Twp.) Tax #208-200-352102, -352100, -351201. Owner: David Lubben Trust

Petitions to rezoning from rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.

Present: Tom Gonyea and Paul Otto with Otto Associates

- A. Rhineberger reviewed property details and request with property maps on display. The property is roughly 102 acres in size with road frontage along Eastwood Ave. SE and 110th Street SE in Franklin Township, with the eastern boundary of the property being lakeshore on Rice Lake. This request is to rezone the entire property from General Agriculture (AG) to Agriculture/Residential (A/R). The area of the property within 1,000 feet of Sheldon Lake would keep the Shoreland Overlay (S2) designation, as well as those areas designated as Floodplain (FP) would also remain. The proposal also includes the establishment of a Rural Planned Unit Development (PUD) district. Concept plan was displayed. If approved, an application for a 17-lot platted subdivision, which would include 15 buildable lots and two outlots, would follow. The Township did approve of the request. This request needs to establish both the rezoning and the PUD district. Looking over historical files PUDs have been completed a few different ways. This process is trying to do one shot and avoid duplicative hearings for relatively the same request.
- B. Otto – wanted to comment on the extension of the road from the south. That road is an extension of an existing cul-de-sac. Plan is to preserve the horse farm facility, which is the 18 acre lot on the concept plan. There are 3 lots that access the township road. The property to the west and southwest is proposed as common open space and this open space butts up to common open space to the west.
- C. Public comment opened.
 - Mary Sullivan – 4386 115th St – stated she did not receive the proposed plan in the mail and that is a concern. When talking with a neighbor they had no idea that there was an intention to extend the cul-de-sac. Questioned if it is normal that a proposed plan would not be included with the notice, so the neighbors can see the plan. Mol – notified there is something and that would be the residents responsibility to get information. That could be going to the Township because the applicant is required to go before the Township. There is also opportunity to go to the County. Rhineberger – yes, it is customary to only include the notification. Sullivan – second concern is this proposed development is appearing to be part of another development. She feels this should be a separate development from the current development. The existing development was developed with a cul-de-sac with no plan included for future development, which is a concern. The people living on the cul-de-sac houses are no longer on a cul-de-sac and there is an addition of 11 homes to a dead-end street. A concern is the traffic doubling on the current road. There are small roads filled with potholes in the area and she feels it needs to be brought up as a concern with 11 more homes being added to the area. Would assume that is something Franklin Township would address but it is a concern. Currently there are a

total of 14 homes that are on 3.5 – 4 acres or larger. These 7 lots will be less than 3 acres and one lot less than 2 acres. Looking at the surrounding area the lots developed farther down the road are 4 acres or more. Now we are going to add into that area smaller lots. Not against the development but concerned with the decrease property value because now the people that had a cul-de-sac no longer have a cul-de-sac. Also, concerned with the increase traffic and amount of small kids in the area.

- William Erickson – 4308 115th St – Rhineberger made a statement to his wife that this project has been being worked on for 10 years and the owner was a holdout. Rhineberger – no he had not. Erickson – how long has this change been worked on? Rhineberger – they applied in September. Erickson – based on Section 155.059 states if any standards contained within the MN Rules Part 6120.2500 and 6120.3800 are more restrictive than the chapter or stricter standards shall apply. In this situation at least 50 % of the total project must be preserved as open space, which this plan does not do. Current plan is at 33%, so how did we get past the 50%. Section C2 references protective waters and wetlands and that they should be preserved. Referencing the proposed plan Mr. Erickson pointed out the area along the westside and if it would be recommended the trees along the wetlands should not be removed. In a conversation with Rhineberger, it was stated once land is owned, they can put the home in any location and if they wanted to remove trees that would be up to the homeowner and covered in this request. Rhineberger – there are shoreland rules and ordinances regarding the shore impact zone. Erickson questioned the trees and if the owner has a right to cut them down with Rhineberger confirming. Erickson – another concern is the open space. The last one put in was supposed to be maintained by the property owners and it is overgrown and not maintained. The area in some parts is a dirt bike path. In this request the common use space, which includes the wetlands, would be allowed to be used by owners to ride motorcycles or ATVs in that area. There was mention regarding traffic on the current road. It was a road installed by the residents and is maintained by Franklin Township. That road right now is zoned at 55 mph, on a dead-end road with residences. Now adding in 11 homes you believe 25-26 additional cars coming though at 55 mph is a good idea. That is a scary for all of us. Questioned what this benefits for those that live in the area. Nothing, we moved out of the cities and bought land to try and get into a community that was built around large lots with open spaces. Feels infrastructure of Delano can't support the rapid growth that is occurring.
- D. Otto – development to the south is the same exact zoning. They did not have common open space but the horse facility was the preserved portion of the land. Essentially this request is asking for the same thing as that development. Understands people moved into the area to enjoy the land but the precedence is set by the comprehensive Land Use Plan and where development should happen. The cul-de-sac that is existing might be on a temporary easement. If the right-of-way doesn't show a cul-de-sac it was intended for the road to go through, which is what this board tends to do when these properties are developed. Connecting the road or accessing another way, the intent is to preserve the horse facility. If the road is brought from north to the south, it would disrupt the horse farm facility. Idea is to keep that facility in place and allow to stay together as a large parcel.
- E. Gonyea – this will be about 1,300 ft. of road that will not even have homes in that area. Mol questioned if the Township will agree to take over and built to their specifications and maintained by the Township. Gonyea confirmed that is the intention.
- F. Felger questioned who would have use of the common space. Otto – typically how it works is if there are 15 lots each lot would have 1/15 ownership and tax commitment in that outlot.

- G. Mol questioned how the outlot is maintained. Otto – personally lives in a PUD where there is 17 acres owned by 13 people that is policed by the owners. There is a (Homeowners Association) HOA with no funds contributed but when there is a need to address something they come together and come up with the needed funds. It is self-policed and nothing the county deals with or can enforce beyond the typical zoning items, such as noxious weeds. Generally, it is up to the owners to decide what to do with the area and maintenance. The area can also be restricted as his HOA does not allow the use of ATVs or snowmobiles. Gonyea – the county does require an HOA with the common outlot.
- H. Thompson questioned where the HOA requirement is located in the ordinance. Rhineberger – usually it is set as a condition that it be considered common open space. Not sure it is actually required in ordinance. Thompson – it was stated that there would be a HOA per county requirement. Gonyea – correct. Thompson – what is that and what should it be? Otto – typically the HOA is to establish and make sure the parcel doesn't go into tax forfeiture. What can be done is typically up to the HOA, unless specific conditions are set by this Commission. Thompson stated she belongs to an HOA in another state and if there are not real good rules there can be a lot of disagreeing and arguments within the HOA. She encouraged any plans approved include an HOA agreement to ensure all property owners would have access or be required to meet the standards.
- I. Bravinder – biggest concern is the outlot and that it is taken care of and covenances are a good way to prevent issues. When it comes to the type of vegetation, he could care less as long as there aren't noxious weeds, which the county will take care of. Mol – agrees, there are weed ordinances that address noxious weeds. Otto – in this case the areas are already established and is a little different than a farm field being left to grow. This open space is contained within mostly wetlands and woods.
- J. Thompson stated she would like a site inspection.
- K. Bravinder – would like to see how the existing road is platted, is it a platted cul-de-sac or through road. That does have some bearing on how things are done. Kryzer – directed the Commission to view the displayed GIS map and pointed out the map was drafted based on the plat and shows a straight line. Therefore, it is dedicated in fee as a straight line and not a cul-de-sac.
- L. Felger questioned if map of the plat to the south could be displayed. Rhineberger displayed the preliminary plat map and noted the final plat would have followed the preliminary plan. Kryzer – note that it does state temporary cul-de-sac on the north end of Eckert Ave.
- M. Thompson moved to continue the item to November 16th to allow time for a site inspection. Motion seconded by Felger.

VOTE: CARRIED UNANIMOUSLY

2. **ESTATE DEVELOPMENT CORPORATION** c/o Tom Gonyea – Cont. 10/12

LOCATION: 11126 Eastwood Avenue SE – The NW ¼ as well as part of the NE ¼ lying westerly of Rice Lake in Section 35, Township 118, Range 25, Wright County, MN. (Rice – Franklin Twp.) Tax #208-200-352102, -352100, -352101. Owner: David Lubben Trust

Petitions for rezoning from rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.

Present: Paul Otto with Otto Associates.

- A. Rhineberger – item was continued from the October meeting to allow time for a site visit. Since the last meeting the Wright County Highway Department responded that the developer should be made aware that the bridge connecting Eastwood Ave. to County Road 16 will be replaced in the summer of 2024. Four neighbors have also submitted letters of concern and do not support the proposal as presented.
- B. Otto – at the site felt the Commission was able to see the proposed vision. Extending road from the south, lots on the ridge and preserving the existing farmstead. Similar to projects in the area that this Commission has seen.
- C. Thompson questioned if there will be an exit on the north road. Otto – do not have that in the proposal. That would bisect the horse facility they are trying to save. Thompson – access would be off of existing street to the south. Asked if the road to the south of the cul-de-sac is slated to be connected to another road in the future. Otto – not sure, it does abut vacant land so possibly.
- D. Felger – recalled statement was made last month that indicated Eckert Ave. ending in a cul-de-sac was temporary in nature. Otto – correct, believes there is a temporary easement. Felger questioned if temporary because they anticipated Eckert Ave. would be a public road. Otto – assume it was a township requirement to allow future access.
- E. Public comment opened with a maximum 5 minute limit.
 - Mary Sullivan – 4386 115th St. SE – last meeting it was stated Franklin Township agreed to maintain the road. She ran into Renee Olson, who serves on the Township Board, and questioned the road. Renee stated she was not aware of the road and the Township had not seen a proposed plan or discussed the road. The response letter from the Township only states they approve of the rezoning. Feels the expansion of Eckert Ave. will affect 25 families and by not expanding, and going to the north, only one family would be impacted. Does not feel the plan for the road to go through is even a thing if the property is Agriculture. Rezoning would have to happen before you can plan for a through road and she was not able to find a plan that showed the road going through. Main concern is the doubling of traffic and impact on 25 homes. The reason they built is due to the open space and natural look to the property. Unsure if there is a plan for the open space. Photo of the view from her yard and the proposed open space was displayed for Commission and provided to staff. Concern is there is no plan

- for the open space and she feels her land value could be affected. Concern that the neighbor's property value will be affected with the removal of the cul-de-sac, added traffic, and change to the open space. Mahlberg questioned expertise on land value. Sullivan – bought and sold 4 homes and aware of value. Owned a home in Delano that they knew for a fact would be a through road because of the presence of barricades. When they purchased their current home there was no indication or expectation that the cul-de-sac wouldn't remain. Statement made that she does not have property value expertise, besides being a homeowner. Mahlberg – understands the no expectation but the plat map indicates a potential through road. Sullivan – not familiar with a plat map and where this file exists. Rhineberger – displayed the plat map being discussed and explained plats are on file with the County Recorder and this one appears to have been approved in 2003. There is also a file on hand in Planning & Zoning. Greninger asked where Ms. Sullivan's home is located with Rhineberger using Beacon to display. Sullivan – quite a bit of proposed open space will merge with their existing open space. Mahlberg questioned if area is mostly wetland with Sullivan confirming swamp and cattails.
- Kelly Thompson – 11638 Eckert Ave. SE – before the Commission asking if there is an alternate to keeping her neighborhood a neighborhood for her children. She had provided a detailed letter to the Commission. In 2008, when she moved in, there were 3 homes and she has watched new homes pop-up with plans of 5 more homes. Feels we have not begun to realize the traffic that is happening on this road. Her kids are young and they enjoy riding bikes on the road. This road does not have a posted speed limit, lights, or capacity to handle this amount of traffic. Her child deserves to ride his bike to a friend's house without being pegged by a car. People drive 50 mph on this road and she can't bear to see another 16,000 cars drive by her home yearly. Concerns with home value. Not a real-estate agent but does know when she goes to buy a house the level of traffic does play a role in what she is willing to spend. She lives a busy stressful life and wants to be able to have her piece and quite, this is not what she bought or signed up for. Feels the property can easily be accessed through another point. Concerned for wear and tear on the road. Every year there are horrible potholes and she is not sure how the roads will be maintained with increased traffic. Wants to know who will pay for wear and tear and maintenance, doesn't feel they should have to pay. Feels it would be safer to have less car driving through the neighborhood. Mahlberg – with location map displayed asked what the alternative would be to access the homes. Thompson – 110th or through Mr. Lubbens private horse farm. Mahlberg – at the site and from a topography perspective he viewed the top area being the existing paddock and drop off towards the trees. Question how she would suggest access to proposed Lots 5-15. Thompson – through edge of Lot 4. Has heard years ago there was another builder that looked at developing and there was access coming from an alternate point.
 - Amy Warner – 4251 115th St SE – opposes access coming off of the current cul-de-sac. The only reason why that isn't happening is to preserve a horse farm. Mahlberg – that is not known. Warner – will hear from all families along 115th and Eaken there are small children and a big part of reason they purchased is very quiet and little traffic. This will greatly impact how they enjoy their property just to save a horse farm. Feels access can come off of 110th St. or Eastwood Ave. Looking at the lot sizes, they don't seem consistent with neighborhoods in the area. They actually have larger lots, she personally lives on 23 acres, and there are not a lot of existing 1-2 acre lots. Thompson asked which lot Ms. Warner owns as displayed on Beacon aerial. Mahlberg asked for a historical aerial to be displayed as he believes this was the only property present prior to the lake lots. Rhineberger – confirmed, this was the original farm property developed as Rice Lake Retreat.

- Mark Nettesheim – 4255 115th St SE – stated his home was one of the first of the development and concern is the increase in traffic and the curve of the road is hard to see around. His 4 children love to ride four-wheelers, snowmobiles, and bikes; the addition and tacking onto the end of the development will be detrimental to kids safety. His family is in opposition of this extension. Mahlberg – before the lots were developed the people living off of Eaken were having the same thoughts as being presented tonight. He is struggling with at what point do you get yours and the next person doesn't. Nettesheim – Mr. Gonyea builds a great home and he doesn't feel that his home value will be deterred. The issue is added traffic and ability to find another access point off of 110th or through trees and horse farm. Feels that there is a better way to route traffic besides through the existing neighborhood. As mentioned, the smallest existing lot is 3.4 acres so to add in 1-3 acre lots it does change the demographic of the Rice Lake Retreat and is a concern.
 - Kristi Mittelstaedt – 4243 115th St SE – lived in this home since 2004. Brother is the one that developed the original property with no intention, at that time, for the road to go through. There are a lot of people that walk and use the road because it is a quiet road and safe to use. Changing this will change the entire dynamic of the intended use of the development. It was intended that the road would not go further and access would be from the gravel road. Previous comment made about what should stop someone else from coming in when we were given the access to live here, is true, except that was not the intended purpose. Intended purpose of the development is quiet country lots not intended to be turned into a larger development with small lots. Mahlberg – mentioned it was not the intent, what does that mean? We are talking about a piece of land that was not part of the original development so where is the basis of the statement that this was never the intention. Mittelstaedt – the two gentlemen that developed the property never intended the cul-de-sacs to be connected to another development. Mahlberg – confirmed Ms. Mittelstaedts brother was one of those gentlemen and questioned if conversation was had with brother in response to this request. Mittelstaedt – no, not in response to this.
- F. Greninger – questioned if 110th area was wetland. Rhineberger – displayed site plan and explained the ridge area and wetland.
- Jeff Sullivan – 4386 115th St SE – abuts the property in question. No doubt in his mind that any changes to the land will negatively affect his property value. They have always known and understood there could be changes to this parcel of land, including development similar to theirs. Also, they have understood their development is closed with expectation any development done would be done as its own unit with its own access. This proposal does not align with either of those expectations and he would like the entire proposal rejected. Written comment was provided (included in staff report) as to why this proposal violates the Wright County Zoning Ordinances and negatively affects his family and his neighbors. There are 7 main statutory issues that should be addressed to ensure compliance. If this Commission chooses to not reject in its entirety, he would like these 7 items to be considered. Mr. Sullivan went on to read and summarize the submitted comment document related to the 7 items. Kryzer – appreciates the comments and 7 items but the purpose today is related to rezoning. When making a rezoning decision this Commission will provide the County Board a recommendation and there are not conditions attached. Items mentioned are part of the record but are more considered as part of the subdivision process. Sullivan stated he understood but it is hard to approve the rezoning if one isn't aware of the plan.

- Brad Beyer – 11572 Eckert Ave – moved to Rice Lake in 2020 and purchased solely for a quiet neighborhood. Feels this development isn't going to be stopped but his ask would be that the access be looked at from 110th or Eastwood Ave. Mahlberg – his letter came in today so if there are items not yet said he can do so. Beyer – environmentally it was pointed out where the river enters Rice Lake. Not sure of plan for that proposed lot but every spring the road does close due to flooding and the larger parcel would be underwater. Mahlberg – asked for clarification if 110th St. closes in the spring with Beyer using displayed Beacon map to explain area of 110th that does get closed.
 - Cortney Bragg – 4308 115th St SE – at the last meeting it was stated that the intent was to look at these (rezone & development) in tandem. Kryzer – a preliminary plan is required as part of the rezoning so there is an idea of what is coming. The main statement was regarding the procedure process. Yes, they do review the preliminary plan and comments are valid, good to hear and part of record. Bragg – recognizes development is inevitable. Land development, in most cases, is seen as a form of progress. Whether development is positive or negative will always be a personal interpretation based on how it affects each individual. In order to take personal interpretation out of the matter at hand Wright County has statues in place when rezoning from General Agricultural (AG) to Agriculture/Residential (A/R) and statues for Rural Plan Unit Developments (PUD). There is Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances that she would encourage the Commission to uphold. These rules ensure the development has a positive impact on the community, fits into the counties plan and has gone through proper channels. In this case the plan put forth by Estate Development Corporation does not comply with at least 7 items in the mentioned statutes, chapters, and ordinances. Details regarding those items were provided earlier and can be found in the staff report. Estate Development Corporation has not discussed the plans for a PUD with Franklin Township. She requests the rezoning and Rural PUD request be looked at independently and that the Rural PUD plan be denied until Estate Development Corporation can meet the required statutes.
 - Dan Zerr – 4244 115th St SE – recently purchased his property and is here to be supportive of his neighbors and in alignment with them. The statement made by member Mahlberg of “who gets theirs and who does not” was the most valid point he has heard tonight. His hope is that everyone that wants this development to happen get their wish and those in attendance get their wish. Tonight, he has heard a decision was made to preserve a horse farm over what these families have repeatedly stated and that is not right. He feels that Mr. Otto can figure out an alternate access point. Felger – questioned where Mr. Zerr lives with Mr. Zerr replying 4244 115th St.
- G. Rhineberger stated that a lot of the discussion has been around the concept plan. Subdivision Ordinance 154.32 does explain why the development of Rice Lake Retreat was done the way it was and that the road was not developed as a cul-de-sac but a dead end 66 ft. wide road right-of-way for potential extension of the road. Rhineberger went on to read Ordinance 154.32(A) *Except for cul-de-sacs, roads and streets normally shall connect with roads and streets already dedicated in adjoining or adjacent subdivisions, or provide for future connections to adjoining unsubdivided tracts, or shall be a reasonable projection of roads in the nearest subdivided tracts.* In this case, if in the subdivision phase, the logical connection would be to connect Eckert with Eastwood or 110th St. and makes the most sense. Long cul-de-sacs are actually discouraged and you do what you can to connect to an already existing street. Referencing the Subdivision Ordinance access wouldn't be as shown on the

concept plan or another cul-de-sac coming in from 110th or Eastwood Ave. but it would be a connecting street extending Eckert to Eastwood or 100th. Mahlberg – confused on the references to the Subdivision Ordinance 154. Questioned if those standards are applicable now or during the subdivision process. Rhineberger – reviewed at the subdivision point. If rezoning and PUD district are approved then the Commission will look at some of this when discussing the development of the PUD. If the rezoning is approved but not the PUD district some of this might apply and some might not depending on the presented plan at that time and possible road situation. Without the PUD the lots must be at least 10 acres in size and have at least 300 ft. of road frontage.

- H. Mahlberg – a separate issue, that possibly Mr. Otto can address, is the statement made regarding what the Township was presented and their response. The Township response form states they approve rezoning from AG to A/R and stops there. Questioned if the Township had intentions to share thoughts on the establishment of the PUD. Rhineberger stated he has the response that everyone else has.
- I. Greninger questioned if this is voted on could it be sent to staff for findings. Kryzer – could recommend staff draft findings consistent with approval or denial, that is up to the Commission. Franklin Township does have a meeting December 4th so the matter could be sent back for specific review and comment on the road. Rhineberger stated where we are in the process feels a remand for recommendation on the PUD but not the road, the road is part of the subdivision process, which has yet to be applied. Kryzer – feels there is some ambiguity with the road and what the Township would like to see.
- J. Bravinder – read what the township received. *Petitions for rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.* Feels the Township had more information than just rezoning and knew the request was for a Planned Unit Development. Mahlberg – staff notes on that notice does say, *Requests complies with the Land Use Plan designation for “Rural-Residential”.* Planning Commission may recommend the establishment of the PUD district. Questioned who staff is on this notice, is it Planning & Zoning or Township? Rhineberger – Planning & Zoning is staff making the note. Mahlberg – Township responded that zoning sounds great but there is now a question on the PUD part of the request, as there is no related comment either way. Bravinder – Cokato Township would give a yes or no separately for the PUD portion, as it is a separate portion of the request. Mahlberg – according to what he is hearing member Bravinder state; Franklin Township did not take action on the PUD. Bravinder – confirmed.
- K. Mahlberg questioned if Mr. Otto was at the Township meeting and has an opinion. Otto stated he was at the meeting and he presented a plan to the Township. He would suggest to this Commission that if they want certain answers to certain questions they are listed as line items for the townships. He visits the majority of the townships in the County and feels 75% of them do not understand what staff is asking. Most times the township looks at the plan and they say, ‘yep looks good, we like it’. At the meeting with Franklin Township, they discussed the cul-de-sac and their request for an island in the middle, it may or may not be in the minutes. They do provide feedback but feels they don’t understand what is needed for the County level when it comes to a motion. Feels that to the Township rezoning and rezoning with a PUD is the same, they don’t understand the intricacy of what the County needs or looks at. Rhineberger – roughly 3 years ago there was a township training session

and one of the issues is that the townships do have turnover. There are plans in the works for another training session and responses are one of the topics that will be discussed. Otto – not opposed to going back to the Township and getting what is wanted by the Commission. Currently at the rezoning phase so talking about subdivision things is premature. As mentioned, he can design a road coming from the north but he is almost certain the Township will not want another cul-de-sac coming from the north. The southern corn field area is the best area for lots and either the road from the north will connect to Eckert Ave. or Eckert Ave. will be extended, as proposed. Staff requires a concept plan and there is a lot of thought put into the best building sites. If a road is run near the horse barn and house, he is not sure what they would do with the property, as it exists. Overall, he feels rezoning with a PUD the most logical for this property and 10 acre lots do not make sense for this property.

- L. Bravinder – he is in full support of continuing the item so that a sound response from the Township on PUD and A/R rezoning can be received. Feels the Township didn't fully understand the request. The PUD development, as described to the Township, is for lots 1-11 and aligns with the existing PUD lots. He is not convinced the Township understood the full request. Mahlberg – he doesn't feel it is right that the Township didn't understand what they are approving. They might not have understood the process to get there. At a township meeting the Board doesn't care what sections of the ordinance are being referenced, they see a concept plan and approve it. This Commission might not always get detail findings with backing of how a decision and why a decision was made but he feels the townships do understand the overall request. Bravinder – specifically the PUD portion he does not feel the Township addressed in their reply. For himself he wants a specific response on the PUD portion of this request in order to make a decision on the rezoning request. Mahlberg – if this Commission remands the request, then that Township should be notified of what this Commission is specifically looking for. Kryzer stated that staff can present a list of questions for the Township. It should be noted that timeline MN Statue 15.99 waiver runs out 12/30/2023 and there are limited County Board meetings. If the item is remanded a waiver of MN Statue 15.99 should be signed by the applicant and he is not present. Otto stated he is not authorized to sign that document. Bravinder – if making a decision tonight he would recommend approving the rezoning from AG to A/R. In his opinion they (Franklin Township) are approving the entire request. The plat and road would get addressed later. Mahlberg – approving the rezoning doesn't address the establishment of the PUD. Bravinder – yes, it is in the request. Mahlberg – reads the request as a petition to rezone and establishment of the PUD. Can they not be acted on separately? Kryzer stated they could be acted on separately.
- M. Holland feels it would make sense to address what the Township approved, which is rezone from AG to A/R and then kick back to the Township and have them review the PUD. Rhineberger – the timeline runs with the totality of the request so 15.99 waiver would still apply to the establishment of the PUD. Kryzer – if continued to December it will need to be for findings because the applicant is not here to address the 15.99 waiver. Holland questioned what date is the last County Board meeting with Kryzer stating December 19th and this Commission meets December 14th. Rhineberger commented deadline for County Board agenda submission is December 13th.
- N. Thompson – the Township response states they approve rezoning from AG to A/R, and that is what we are here doing tonight. Mahlberg – we are here for the rezoning from AG to A/R and the establishment of the Rural PUD. This Commission needs to provide a recommendation to the County Board on both items. Rhineberger – the rezoning and establishment of the PUD are both zoning approvals that require County Board review. The PUD district is an overlay district, so it has to be established and approved by the County Board. The actual creation of the PUD is a subdivision. Otto – not approving the proposed plan but approving the development would be lots less than 10 acres.

Based on discussion and direction from this Commission the plan could look different than presented tonight. Tonight, the proposed plan itself is not being reviewed but the idea of the smaller clustered lots on less than 300 ft. road frontage and preservation of open space is what is being discussed. It would be ideal to come to a rezoning meeting with a blank piece of paper but these discussion help make a better project for the developer and the neighbors. He takes note as to what is being discussed and does take into account the concerns and discussion when reviewing the plans.

- O. Mahlberg – the PUD provision 155.059(F)(4)(d) states the outline development plan must include a *statement of preliminary approval from the township board, which indicates that any proposed roads will be accepted as township roads*. Is this not applicable? Kryzer – provision cited deals with the establishment of a PUD. The official subdivision of that PUD comes at a later date, it is a twofold process. Yes, here you would need input from the Township. Feels the Commission could make a finding that rezoning at this time is not ready. It may be in the plan but given facts in the record there is not enough to establish rezoning, at this time. Mahlberg – what basis would there be for denial from AG to A/R, it is in the Land Use Plan and Township is recommending? Kryzer – Planning Commission and County Board can always say those items are present but they can also say they are not ready for development in this particular area and not ready for development at this time. Mahlberg – is the preliminary approval supposed to have been received at this point? Kryzer – depends on the townships. Usually, the townships indicate they are acceptable to the road but there have been times when a township clearly stated they would not maintain the road. In this case not having that approval statement and the comments made tonight does create some ambiguity. Otto – most of the townships are not going to approve the road until at the preliminary plat stage and most times comment is approved if built to township standards. Mahlberg – provision 155.059 states that along with an application and underlying development plan an approval statement from the township accepting the road is required. Is this something new or something that just is not done? Otto – procedure has changed over the years and before this administration. Mahlberg – if the Township saw this request and dug into what 155.059 states, they would see a procedure that is not being followed. Otto – correct, not sure the old procedure was correct either. Rhineberger – in the past when the PUD was established, if they approved the preliminary plat, it was subject to County Board approval of the PUD. Feels going this way follows a better form so that work is not done by the applicant prior to approval. Mahlberg – he is all for efficiency but he is not a fan of the ordinance, he is supposed to apply, telling him something that is not being done. Feels there is a possibility the ordinance needs to be changed or the process followed.
- P. Felger addressed Kryzer and asked for clear options. Kryzer – option could be to close the public hearing and direct counsel to draft findings based on the record and discussion, consistent with the denial of the request to rezone, and continue the matter to December 14th. Another option would be to approve and recommend approval to the County Board of Commissioners to rezone the property from General Agricultural (AG) and part Residential-Recreational Shoreland (S2) to Agricultural/Residential (AR) and part Residential-Recreational Shoreland (S2) and establish a Rural Planned Unit Development District (PUD) based on the concept plan completed by Otto Associates dated 7-20-2023, Project No. 23-0282, because it is aligned with the goals and policies of the US Highway 12 Corridor Land Use Plan. Mahlberg questioned if this Commission is permitted to make a decision that if a 15.99 waiver is received can be revoked and it is as if the Commission did not make a decision and therefore not heard by the County Board. Kryzer – logical way would be to recommend denial that is contingent. Mahlberg – suggestion would be recommend denial of the rezoning based on the discussion and findings to be drafted; however, if the applicant provides a 15.99 waiver within 7 days the decision is automatically revoked without further action. Kryzer – feels this would be reasonable. Hope would be the applicant would provide the waiver and meet with

the Township prior to the December 14th meeting. Otto – client is pretty agreeable and doesn't see that type of motion being a problem. He would like the Township to be made aware of what this Commission is wanting to see with a response.

- Q. Malberg motioned to close the public hearing and direct counsel to draft findings based on the record and discussion, consistent with the denial of the request to rezone, and continue the matter to December 14th; provided however that in the event the applicant provides a signed waiver of the 15.99 time requirements within the next 5 business days this motion shall automatically be revoked with the item set to be heard at the December 14th Planning Commission meeting provided the applicant has met with the Township prior to then. Further directing staff to issue inquiries to Franklin Townships Board as to the basis for whatever decision Franklin Township makes on the rezoning request and the request for a Planned Unit Development. Motion seconded by Holland.

DISCUSSION: Felger – motion mentioned the applicant has to meet with the Township, could that be the applicant representative? Malberg – confirmed. Felger question Mr. Otto if 5 days for the waiver would be achievable. Otto – if a signed email form would be acceptable, he doesn't see a problem. Kryzer – needs a signed form, email is fine, and with the holiday he would suggest deadline of December 4th.

Malberg and Holland agreed to amend the motion from 5 business days to no later than December 4th.

VOTE: CARRIED UNANIMOUSLY

Felger – at 8:45 p.m. a 5 minute recess was called.

2. **ESTATE DEVELOPMENT CORPORATION** c/o Tom Gonyea – Cont. 10/12, 11/16

LOCATION: 11126 Eastwood Avenue SE – The NW 1/4 as well as part of the NE 1/4 lying westerly of Rice Lake in Section 35, Township 118, Range 25, Wright County, MN. (Rice - Franklin Twp.) Tax #208-200-352102, -352100, -351201. Owner: David Lubben Trust

Petitions to rezoning from rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.

No Representative Present

- A. Rhineberger – at the previous hearing, the Commission continued for a site inspection and motioned for findings consistent with denial, with a stipulation that if the applicant signed a waiver of the MN Statute 15.99 requirement, the matter would remain open to the public and discussion could continue at this hearing. The applicant has signed the waiver, nullifying the drafting of findings. Since that meeting the Township requested revisions to the concept plan and have asked the applicant to come back for further Township review. Therefore, the applicant has requested this matter be continued to the January meeting.
- B. Motion made by Felger to continue the matter to the January 11th, 2024, meeting, at the applicant's request. Seconded by Holland.

VOTE: CARRIED UNANIMOUSLY

PUBLIC HEARINGS:

1. **ESTATE DEVELOPMENT CORPORATION** c/o Tom Gonyea – Cont. 10/12, 11/16, 12/14

LOCATION: 11126 Eastwood Avenue SE – The NW 1/4 as well as part of the NE 1/4 lying westerly of Rice Lake in Section 35, Township 118, Range 25, Wright County, MN. (Rice - Franklin Twp.) Tax #208-200-352102, -352100, -351201. Owner: David Lubben Trust

Petitions to rezoning from rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.

No representative present.

- A. Rhineberger – the applicant is still working through revisions of the Planned Unit Development concept plan. The Township has yet to see or rule on the plan. It is believed the applicant is on the calendar for the February Township meeting and therefore have requested to continue the matter to the February 8th meeting.
- B. Felger moved to continue the matter to February 8th at the applicant's request. Motion seconded by Holland.

VOTE: CARRIED UNANIMOUSLY

4. **ESTATE DEVELOPMENT CORPORATION** c/o ~~Tom Gonyea~~ Zeb Haney – Cont. 10/12, 11/16, 12/14, 1/11

LOCATION: 11126 Eastwood Avenue SE – The NW 1/4 as well as part of the NE 1/4 lying westerly of Rice Lake in Section 35, Township 118, Range 25, Wright County, MN. (Rice - Franklin Twp.) Tax #208-200-352102, -352100, -351201. Owner: David Lubben Trust

Petitions to rezoning from rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.

Present: No representative

- A. Rhineberger explained to the Commission this request has a new applicant who has submitted the required information to proceed under the original application. The new applicant, Zeb Haney, and the new engineering firm, Campion Engineering, have met with the Township. The Township indicated further revisions are needed and that has delayed their approval of the Planned Unit Development (PUD) overlay and road, pending seeing those revisions at their March meeting. As such, the applicant has requested continuation to the March 7th meeting.
- B. No public comment.
- C. Motion made by Thompson to continue the matter to the March 7th meeting at the applicant's request. Seconded by Holland.

VOTE: CARRIED UNANIMOUSLY

2. **ZEB HANEY (Formerly ESTATE DEVELOPMENT CORPORATION)** – Cont. 10/12, 11/16, 12/14, 1/11, 2/8

LOCATION: 11126 Eastwood Avenue SE – The NW 1/4 as well as part of the NE 1/4 lying westerly of Rice Lake in Section 35, Township 118, Range 25, Wright County, MN. (Rice - Franklin Twp.) Tax #208-200-352102, -352100, -352101. Owner: David Lubben Trust

The petition is to rezone from rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.

Present: Zeb Haney and Kevin Miller

- A. Rhineberger displayed a revised concept plan and reviewed the request. The matter has been continued several times, last heard in November, and since that time there has been a change in the applicant. The item was continued for Township review related to confusion in the original recommendation that included just the rezoning but not the establishment of the PUD or establishment of the road. Since that time, staff has received a new concept plan, which mostly involved the removal of the common open space. Instead of common open space, the proposal includes a large “restricted land” parcel that would be roughly 31 acres. The lots on the revised concept plan would be extended and take up what was originally proposed as common open space. With the revision, the original farm parcel has been increased in size and is the proposed “restricted land.” The Township has submitted a new response indicating that they have reaffirmed their recommendation to approve the rezoning, approval of the establishment of a PUD district, and gave preliminary acceptance that the Township will take over the road.
- B. Haney stated the summary was done well, and he has no additional comment.
- C. Mol opened public comment with a request that comments be kept to 4 minutes.
 - Jeff Sullivan – 4386 115th St SE – just a few of the residents will speak on behalf of the neighborhood. They are looking to have the preliminary PUD redesigned and updated to show one of two things: the elimination of the Eckert Ave extension completely or a complete extension of Eckert Ave to 110th or Eastwood Ave. There is concern with the length of the proposed extension, which violates Chapter 154 of the ordinances. Chapter 155.059 addresses PUD creation, and in Section 155.059(D)(2) there is a specific reference related to coordinating with Ch. 154. Chapter 154.32 (B) states, “*cul-de-sacs shall not be longer than 500 ft, including a turn-around.*” The proposal adds 1,200 ft. to the already existing 450 ft. cul-de-sac, for a total length of 1,650 ft. With the PUD process, a variance can be granted through 154.059 (E) and 154.059 (E)(4) states, “*variances will not constitute a threat to the property values, safety, health, and general welfare of the owners or occupants of adjacent or nearby land.*” There are concerns about the safety and the general welfare of the adjacent owners. These concerns, regardless of a variance, should be considered.
 - Cody Thompson – 11638 Eckert Ave SE – has lived in the area for approximately 14 years. The main reason they picked the location is to raise a family with space and safety. He has 18 years of police officer experience and can firsthand offer knowledge of safety concerns that neighbors have about this proposed development. The first item of concern is the extension of Eckert Ave remaining a cul-de-sac and not extending as a thru street. This will increase traffic with the additional 11 homes. Research shows the average American household has 2 cars with each driver making an average of 2.44 trips per day. That works out to an increase of 19,593 vehicular traffic over a year and does not account for delivery or visitor traffic. The road is not designed for that increase in traffic, there are no sidewalks, no speed limit signs, no shoulders, and no streetlights. Many families use the current road for walks and biking, and the increase in traffic will take that option away or limit use. The neighbors

are asking that, if approved, Eckert Ave connect to 110th St SE to divert and spread out the increase in traffic. With a fire district map displayed C. Thompson went on to explain the development area is on the border of the Delano and Watertown Fire Department zones. From personal experience, he knows that if a 911 call requires a Fire Dept. response the call will be directed from the Wright County Dispatch to Carver County so Watertown FD can respond, and that transfer can add valuable minutes. If the call is related to a structure fire, Wright County automatically dispatches the Delano FD as a dual response type of call. Carver County will be contacted as well so that Watertown FD will respond. With access from 110th St SE, the arrival time could be cut down, and possibly save lives and/or property. If Eckert Ave does not go thru a minimum of 1.5 miles would be added to the distance first responders have to travel to reach these new homes. This may seem minimal, but in an emergency, seconds can be crucial. C. Thompson stated he has reached out to the Watertown FD Chief, Tom Hanson, and inquired about the area and unique fire zones, with the 2 counties having dispatch centers responding as well as a cul-de-sac versus thru street. The response from Chief Hanson was that the fire department dislikes cul-de-sacs and would prefer a thru street for the operation of the trucks. With not having fire hydrates, a cul-de-sac situation makes setting up trucks more difficult. Delayed emergency response is a large concern. C. Thompson provided his written statement to the Commission. Bravinder questioned if Watertown and Delano have an auto-response agreement. C. Thompson stated they do. Bravinder – so they would not be waiting for a call to aid. It is an auto-response. C. Thompson – confirmed.

- Billy (William) Erickson – 4308 115th St SE – here tonight on behalf of neighbors to address the infrastructure, property value impact, construction process, and being collaborative. Asking for help in negotiating the well-being of their community. Need to address the existing infrastructure as roads, utilities, public services, and amenities. It should be determined if the new demand can be supported without affecting the existing residents' quality of life. A new development is supposed to enhance the surrounding developments. What enhancements is this development bringing in? It can be argued that with a well-planned development, property values can increase. He is not a relator and can't tell if this development will positively or negatively affect the value of the existing homes. The additional development will bring in at least 5 years of construction. He did talk with a realtor, and if he decides not to deal with 10 years of area construction and instead chooses to sell his home, in today's market, he will not be able to purchase a home that is comparable to what he has today. The construction process can be disruptive, and the area is already seeing the impacts on the local roads from the recent construction of 3 homes. The neighbors are asking the developer to add 1,800 ft. of road and connect Eckert Ave with 110th St. The extension of the road will alleviate construction traffic and also may alleviate any bonds that would be needed to replace 1.5 miles of existing roads. The last item he would like to address is collaboration. There has been zero negotiation with the previous and current developers when asking for an extension to the existing road. The developer has stated that the cul-de-sac preserves the integrity of the horse farm, and the cost of an additional 1,800 ft. will no longer make the project financially beneficial. The neighborhood is asking for consideration for the current and future residents. There is no one standing in support of the development outside of the developer. At a crossroads of financial advancement versus community engagement. They are asking for help in negotiating for the well-being and betterment of their community and neighborhood.
 - Dan Zerr – 4244 115th St SE – there are legalities and rules to consider, but the ask is of the people in the neighborhood as the constituents and taxpayers. They are not asking for denial or not developed but are asking for their well-being to be considered as the item is discussed and deliberated. Behind the scenes, the neighborhood discussed if there could be a possibility of financially helping with a thru road; that is the level of commitment.
- D. Haney feels some concerns are overblown. Regarding the traffic increasing, with 11 new homes on the southern end of the property, that works out to be 3.52 cars per hour with most of us wishing only 3.52 cars drive by our homes a day. Extending the road north is not feasible. Worth noting, on the south side of the development, there are 8 homes all serviced by the same Fire Dept. so the extra distance a fire truck would have to travel is nominal. He does not have safety concerns; it is a neighborhood just like we all have to live

in. This is going to be a nice development, and many of the homes on the southern border were farmland 2 years ago and created like this process. Trying to create a road from the top of the cul-de-sac will cut right next to the horse farm and house, near wetlands, and it is much more logical to keep it as proposed. Haney reiterated they can't do the project if they are required to extend the road north. Mahlberg questioned if when saying it can't be done is strictly related to finances and no other reason. Haney confirmed. Miller – on the west side of the horse farm there are some bluffs that are so steep a street would not be an option. On the east side, there are setbacks from the lake of 200 ft. with erosion to be addressed, and it just doesn't seem to work. Mahlberg – hearing a financial feasibility issue from Mr. Haney and Mr. Miller stating it doesn't seem to work. In this circumstance and under Chapter 154.32(B), there needs to be justification for allowing a cul-de-sac other than financially unfeasible. Haney – used the proposed site plan to explain the area of the horse arena and pasture that would be cut into and went on to state the property designed to hold horses would be ruined. Malberg – regarding the issue of construction traffic, he would like to hear more related to the development of 11 new homes and the expectation of traffic on a cul-de-sac longer than the ordinance allows. Haney – has a real-estate background, and in his experience, he feels that most times, once the ground is broken, it typically takes 10-14 months, not a 4-year process. Over a 10-14 month period, you'd have your typical tradesman but couldn't begin to guess how many visits. Mahlberg – the 10-14 months would depend on the absorption. In this market, all lots could sell fast, and work be done on multiple homes at once. In a different market, there could be a longer period between the home builds. Haney – Delano is one of the most sought-after markets, so he suspects these lots will go fast.

- E. Thompson questioned the county rules regarding streetlights and sidewalks that could address the mentioned concerns. Rhineberger stated he does not recall any requirements ordinance.
- F. Felger questioned the lot sizes and number of lots. How did they change from the original proposals? Haney – horse farm parcel went from roughly 18 acres to roughly 30 acres. The number of lots stayed the same, with lots west of Eckert Ave. extended in length and widened and the open space parcel was removed. Felger – asked if anything is considered open space with Haney replying, not at this point. Felger questioned the number of lots in the extended cul-de-sac area. Haney – 14 new lots total, with 15 being the existing horse farm. Rhineberger reiterated the number of lots did not change, but an open space area was removed. Felger questioned the requirement of common open space related to a PUD. Rhineberger stated there must be common open space or restricted lands. He recalls two developments approved where open farm field was left restricted and not allowed to be built on. The development where the current cul-de-sac is located is the same as what is being proposed. Beacon was displayed and used to review several neighboring PUDs and how they were developed with common open space or restricted lands. Rhineberger went on to read Chapter 155.059(J)(2)(a) & (b). The PUD to the south will not allow for any additional development on the restricted parcel, which was the original farm site. Felger asked for elaboration on what is meant by restricted. Rhineberger – property is not further developable or entitled to any more residential structures. Felger questioned if the parcel could be rezoned again. Rhineberger – there are provisions in the PUD that handle restricted land and common open space land with a possibility the land could be rezoned to a more dense zoning district. There are a lot of possibilities and even the possibility that the City of Delano could annex, and you will see an increase in density.
- G. Mahlberg stated that in reading Section 155.059 (J), he wants to understand the fact that the property currently being residential use versus productive agriculture lands doesn't cause a problem. Is it that the present use as residential makes it okay to include it as restricted land, versus if there was not a residential use, it could not be put into residential use once restricted? Rhineberger – his position is based on how previous administrators and this Commission have previously viewed the section. Mahlberg – read Section 155.059(J)(1) and went on to state that basically what is being said is if there is a productive farm you can then save it. In reading Section 155.059(J)(2)(b), he is hearing that historically residential uses are being grandfathered in that would otherwise not be allowed. Rhineberger confirmed. Kryzer – Rhineberger is very mindful of the Planning Commission's history and has worked with two Administrators, one of whom helped in writing this ordinance, so he has extensive knowledge of the ordinances. This Planning Commission has the right to change its interpretation if it feels the prior interpretation is incorrect. Mahlberg questioned if anything is stopping the applicant from extending the road, taking out the horse area, and creating a few more lots along

the lakeside of the road. He sees a lot of sense in a thru road but also understands the value of a large horse farm and wonders if a small horse farm could be left and the development saved. Haney – asked for clarification. Mahlberg – appreciates a thru road would be expensive, but it can be done. Would like to know if lots can be adjusted in size, including the horse farm, and also create lots along the lake that would compensate for the financial cost of a thru road. Haney – the short answer is no. There would be a road along a steep grade to the water, which would not be good, and the horse farm would be ruined. Questioned where the lots along the lake would go. Mahlberg – that is the question, has there been a study done on a thru road with changes and additions to lots? Miller – has studied, and the issue is the lake setback and topography that complicates a homesite. Mahlberg – he is trying to get a finer point if they put pen to paper or just looked at the site and made the assumption it would not work. Miller – the engineer did look, and it was determined the cost and difficulty doesn't make it worth it. Rhineberger – in the end, it would not be a couple extra lots because based on PUD standards, there is only 1 additional available site. With the proposed site plan displayed, Rhineberger reviewed the possible reconfiguration of lots as the discussion of options continued. Haney stated he doesn't see how a change in reconfiguring can work with Miller adding that if the east area of the horse farm were taken away, there would be a loss in flat land for the horses. Haney – there are factors in play, but he does not see that there is a way to add additional lots to offset the cost of thru road. Mahlberg stated that it sounds like a thru road is not feasible from a developer's perspective, and that is a good enough answer for him.

- H. Felger questioned Mr. Haney on why they were not willing to sacrifice the horse farm. Haney – the people selling the property want to retain the property as a horse farm for someone else to enjoy. He agrees it is a beautiful property that he would not want to mess with. In the end, they can't, and they do not want to. Felger – it is not an economic situation, but simply a do not want to situation. Haney responded it was both.
- I. Thompson stated she has been a horse person all her life and appreciates the saving of the farm. When developing the other lots, has the idea been entertained of having the owners invest in the farm or use the farm for stabling their horses? Haney – that decision would be with the future owner of the horse farm and how they choose to use their facility.
- J. Mol – had served on a Township Board for many years, and if the ability was there, they wanted to see the road run thru. In looking at the aerial map, there is roughly 10 ft. of slope to build a road, which is not impossible. He is a farmer, and to him, horses are livestock, and there is a concern mentioned about home values. If this area is rezoned, add in 14 new homes, and now you will have high-end homes next to livestock and all the smells and flies that come with the horses. The Commission has been asking for a thru road, and the comeback is there isn't a way to do so, and there is a desire to keep the horse farm intact. For safety, the townships like to see a thru road, and there are a lot of farms in Wright County that are close to roads, so it is not abnormal to have roads within 100 ft. of buildings. He believes a thru road would work, and this Commission can't consider finances. The problem he has is trying to save a horse farm and not run a road along the farm, but he is more concerned with a horse farm now being right next to high-end homes. He isn't against the rezoning, as the property is in the Land Use Plan, but he is seeing the preservation of the horse farm as an issue. He believes there are ways to figure out how to build a thru road and maintain a horse farm, and for him, a thru road needs to be strongly considered.
- K. Bravinder questioned if approved for the rezoning portion how much wiggle room is there with the proposed PUD district and road issue. Kryzer stated now would be the time to outline the concerns. If the concept plan is not favorable now would be the time to seek a change, and if the applicant is not willing to make those changes, now would be the time for denial. Bravinder – the major concern is that in Section 154.32, there is a maximum limit of 500 ft. on a cul-de-sac. There is a reason for that requirement. The same section addresses the planning of roads to discourage their use by non-local traffic. The question is would a thru street encourage that type of traffic, or would a thru street mainly service residents? Mahlberg – in looking at the map, he feels the road would only be used by locals. It isn't going to be a shortcut route. Bravinder – agreed but wanted the Commission to be aware of that portion of the ordinance. He is of the mindset that with a development of this magnitude, he would be in favor of a thru street to 110th St. He understands a property owner wanting to save the beauty of their property, but this can be done by maybe giving up a lot. Haney –

giving up a lot, and the increased cost of the road extension is a significant amount. He knows they are not supposed to take into consideration the cost, but it is just not workable to extend the road. Bravinder – the cost of development is reflected in the cost of the lots. Haney stated, in theory, yes, but he knows the numbers, and it doesn't work.

- L. Felger questioned the highest and best use of the horse farm sitting among multiple large lots. Haney – as a home for a person who wants to have horses as well as possibly house other people's horses. Felger – even among high-end homes on large residential lots. Could the highest and best use possibly be ready for development with an addition of 5-6 lots? Haney – not sure there is an objective answer. Not sure one could make more money if the horse farm is carved up. He didn't look into that as there is no desire to do so. Felger – the home could remain on its own separate 3-4 acre lot. In his opinion what would be sacrificed is the arena, paddock, and outbuildings. Feels there is an opportunity to run the road thru. Haney – there is no desire to tear down the horse farm.
- M. Mahlberg questioned the idea of the restricted parcel. Could the stables be rented and fall under agriculture use? Rhineberger – interpretation would be boarding horses is one thing, and riding stable is a completely different situation as riding stables are an interim use. A riding stable would be out of the scope of what the restriction would allow. It should be noted that, as a rezoned property, there would be a limit of up to 9.99 animal units (AU's) per the feedlot rules.
- N. Holland – if the road goes through, would the horse farm shrink enough to alter that animal unit limit? Rhineberger – depends on the acreage. The most likely parcel would be roughly 20 acres which holds a 9.99 AU limit. If a street cuts thru, what is the proposed farm site a separate second parcel is created and is no longer part of the horse farm acreage.
- O. Mol addressed the applicant and asked how they would like to proceed. Sounds like the Commission is looking to see a thru road. The option is to continue and possibly come back with revised plans. A vote could be had that may or may not pass, and the final option is to withdraw the request and apply at a later date. Haney asked if put to a motion, could they return. Mol – depends on the motion, if denied, it would be 6 months before allowed to reapply from the date the County Board acts. Haney stated he would like to continue. Rhineberger – if making changes, he would recommend the Township review before the next meeting. Mahlberg – Township stated they approved the cul-de-sac. Bravinder – in this situation, they are probably reasoning that a cul-de-sac is not being added. They are simply extending, and maintenance will remain the same.
- P. Motion made by Bravinder to continue the item to the April 4th meeting, giving the applicant time to review plans and if any substantial changes meet with the Township before the April 4th meeting. Seconded by Holland.

VOTE: CARRIED UNANIMOUSLY

Mol called for a 5-minute chairman's break at 8:16 p.m.

WRIGHT COUNTY PLANNING COMMISSION
Meeting of: April 4, 2024
Minutes

The Wright County Planning Commission met on April 4, 2024, in the County Commissioners Board Room at the Wright County Government Center, Buffalo, Minnesota. Chairman Mol called the meeting to order at 6:30 p.m. with members present: Dan Mol, Pat Mahlberg, Ken Felger, Jeanne Holland, Jan Thompson, Dan Bravinder & Sandy Greninger, Barry Rhineberger, Planning & Zoning Administrator, represented the Planning & Zoning office; Greg Kryzer, Assistant County Attorney, legal counsel was absent.

PUBLIC HEARINGS:

1. **ZEB HANEY (Formerly ESTATE DEVELOPMENT CORPORATION)** – Cont. 10/12, 11/16, 12/14, 1/11, 2/8, 3/7

LOCATION: 11126 Eastwood Avenue SE – The NW 1/4 as well as part of the NE 1/4 lying westerly of Rice Lake in Section 35, Township 118, Range 25, Wright County, MN. (Rice - Franklin Twp.) Tax #208-200-352102, -352100, -351201. Owner: David Lubben Trust

Petitions to rezoning from rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development (PUD) overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.

Present: Zeb Haney, Jeff Vanderlinde and Kevin Miller

- A. Rhineberger reminded the Commission this item had been heard several times and was most recently continued from the March meeting for revisions and Township review. Two revisions were received, one with common open space and the other with no open space and the existing horse farm property as a restricted parcel. Both revisions have the cul-de-sac and the Township restated their approval of the request.
- B. Vanderlinde – The Township has stated they do not want the road to go through and the cost to continue the road would be \$1.1 million. What wasn't mentioned at the last meeting is that this is a Subordinate Service District (SSD) and on an SSD the owners will be responsible for the road. The only item the Township will address is the plowing of the road. When the Township decides the road needs to be re-tarred it is the owners in development that will have to pay. As a resident of Franklin Township for over 50 years, he is seeing the area get swallowed up by the City of Delano. The Township reaffirmed this plan 3 times and the plan was redrawn 4 times. The Commission asked for open space, which was the original plan. In an earlier email with Rhineberger reference was made to MR 6120.3800, which addresses PUDs in shoreland, and after discussion with the MN DNR, it was determined this proposed development did not pertain to this rule and open space was not required. The property to the

east, known as the Honebrink property, has no open space and the original home site was kept as restricted. There is also a development to the south that does not have open space and a neighboring development created two years ago that has open space but by ordinance that was not necessary. Vanderlinde proceeded to read minutes from a Township meeting that addressed reasoning for approval. The Township is looking into whether this being a private road needs to be under an association or assessment on the tax roll for the 11 new homes. There are 6 PUDs with 4-5 of them within 1.5 miles of this development that are on a dead-end, one has open space and the others are restricted and mostly used for horses or cut for alfalfa and hay. Using the document camera Vanderlinde displayed a site map of the 6 developments mentioned. Rhineberger state shoreland rules are specific to PUDs. He did speak with the MN DNR Area Hydrologist and MR 6120 has different standards than county standards relate to size and density. In this case, the proposed development does not qualify as a PUD under state shoreland standards but does qualify under the county standards and a PUD can be approved with common open space or restricted land. The interpretation of restricted lands has varied over the years and most of the PUDs in this area have restricted lands with the original farm site and some type of active agriculture. Vanderlinde went on to use the displayed map to review the locations of the PUDs within the area and stated that the Township is reviewing SSDs in the area. Rhineberger explained SSD is a Subordinate Service District where the ongoing maintenance is the responsibility of the township, but structural maintenance is at the cost of the residents. This road is a township road but it is funded differently than a standard government township road. Vanderlinde – private but not. Mahlberg questioned if related costs are processed through special assessments. Rhineberger – has not reviewed the agreements. Bravinder – SSD is not a private road; it is completely public with any improvements paid by the taxpayer and the township responsible for maintenance. Questioned minutes from Franklin Township regarding the SSD with Rhineberger stating the minutes were not provided to staff and therefore not included as part of the staff report. Vanderlinde stated in the October meeting minutes the statement was made that *'Russek will gather all the SSD information for discussion at next month's meeting.'* His understanding is that the Township doesn't want the roads tarred anymore. The new Delano land use plan has most of Franklin Township covered up and growth is not going to be stopped. Once in the Delano land use plan, the owner is restricted with what can be done because the city doesn't want to see large acre lots for when it comes time to install utilities. The Township has reaffirmed this plan 3 times with two plans presented, one with open space and one with a restricted parcel. The Township stated they wanted to see a center island turnaround and they do not want the existing homestead touching the turnaround because they don't want that property having two exits. Having a thru road would be double the cost and no additional lots would be gained. A thru road would require a retaining wall and there would be no homes between the road and the lake plus it would split the existing horse property in half. The question would be who is responsible for maintaining the retaining wall and the land between the road and the lake. The Township is also concerned with a thru road being a cut-thru.

C. Public comment opened with a 4-minute limit.

- Jeff Sullivan – 4386 115th St SE – sat through Township meetings and no discussion was had on ownership of the road or if it would be tar or gravel. There was discussion

- on the turnaround vs. cul-de-sac but if it went through or not was not their duty to decide. The proposed plan is no different than what was presented at the prior meeting. The 500 ft. cul-de-sac statute is still in play with this proposal being well longer than allowed and that is something that this board should reject.
- Mary Sullivan – 4386 115th St SE – abuts the property to be developed. This development impacts the existing neighborhood of 18 and she is unsure if the financial situation of Franklin Township is relevant to this decision. It is possible the road can go through, even at an additional cost to the developer. There is also the option that the road doesn't go through, which has a negative impact on existing residents. She is not saying that the development shouldn't happen but she wants to see the road go through. She doesn't feel this would be a cut-thru and if it was it would be residents from Carver County. The only ones using the thru road would be the residents of the development. She attended all of the township meetings, except yesterday's, and she does not recall a worry being mentioned about the people cutting through. At the last meeting, she recalled encouragement to have the road go thru and that was not even attempted or any effort to show a thru road was possible, which it can. She would like to encourage the Commission to think about the current existing residents of Franklin Township and Wright County when deciding on the proposal without the road going through. Holland – one item she hears repeatedly is when a road needs to be redone and there is an assessment, no one likes how much they are assessed. Questioned if the residents of the existing neighborhood would be okay with a full road assessment. M. Sullivan – from 110th to where she currently lives used to be a gravel road and the residents of 110th St. pooled their funds to have the road paved, chipped, or tarred. She also lived in town where she was assessed for road maintenance. Yes, she has paid for road maintenance and understands the concept.
 - Kristi Mittelstaedt – 4243 115th St – questioned if 115th St is an SSD. Mol – stated that would be a question for the Franklin Township. Mittelstaedt – concerned with the wear and tear on the road during construction. Comment is made to not worry about the road as it is bonded but when the bond is closed the residents of the area could still be affected and have to pay for damage to the road. She would like the Commission to consider the impact of having all this traffic on 115th St. versus out towards 110th and the effects on the existing owners.
 - Richard Todd – 11734 Eckert Ave – where 115th meets Eckert up to the cul-de-sac is currently coming apart, with only 2 homes at the end. Questioned who will pay for the damage to the road. His feeling is the road should be looked at before any construction starts.
 - William (Billy) Erickson – 4308 115th St – the extended cul-de-sac doesn't meet the statute of 500 ft. and it is known that the road can go through but they have heard it is not feasible for the developer or landowner so they have chosen not to propose that plan. The Commission cannot make decisions based on finances. The Fire Chief has stated he would like to see a thru road. Police have stated not running the road thru

- creates additional response time and they would like to see a thru road. After the last meeting, he felt the Commission was adamant this should not be decided based on the horse farm but tonight comment has been made about the issues a thru road creates for the existing horse farm. He feels the developer is considering financial reasons for the road not going through and not considering what the Commission and neighbors have asked.
- D. Vanderlinde – the SSD was discussed with the Township in October, as noted in the minutes. Comment was made that money is a factor, they conceded to the size of the horse farm and brought that down in size. The Township does not want the road and why they have affirmed the proposal 3 times. The cul-de-sac is an extension of an existing cul-de-sac, so it does meet the required standards. It is a cost to extend the road, because of the retaining wall and lack of homes in an area, which is where the Township will have to maintain and not what they want. The road mentioned that was tarred is a blacktop oil-based chip-seal that the Township put down, it is not a tarred road. If this road were to go through it would connect with 110th, which is a gravel road. The 11 new homes will be the ones paying for the new area of road and the extended road details are still being discussed with the Township. This proposal is simply an extension of the existing development that was created through the same process. They are okay with open space or restricted land; it does not matter to them but the road does not work.
- E. Felger questioned Haney if a developers agreement has been established with the Township. Haney stated no. Felger – there was a concern brought up about heavy trucks that may damage existing roads. His concern is if those roads are beat up who pays for repairs? Vanderlinde – there is a current bond with the existing developer, he would assume the Township could call on that bond. Felger – who says the bond would indemnify the Township if another developer further down Eckert damages the road. Vanderlinde – not sure but he would assume the developers' agreement would work that out. Miller – most times townships will inspect a road before construction and after with the option to go back to the developer if needed.
- F. Bravinder stated he is convinced Franklin Township has vetted this to ensure their road and interests are taken care of. There are cul-de-sacs all over the county that do not meet that 500 ft. requirement and this Commission can waive that distance if they so choose. Because of the Township affirming the proposal he as well can go along with the rezoning plan. Mol questioned if he would like to see open space or restricted land. Bravinder – first comment from Township was they did not want the open space and even though the comment was made they do not care if open or restricted there hasn't been any documentation from them stating as such; he will go with restricted.
- G. Mahlberg questioned if the area PUDs have longer than 500 ft. cul-de-sacs. Vanderlinde displayed the area PUD map that was previously displayed and reviewed the distances of each development with none of them being under 1,000 ft. in length. Mahlberg questioned if township minutes, mentioned by Vanderlinde, are in the staff report. Rhineberger stated they are not because they were not received by staff. Mahlberg – feels somewhat that he is having to rely on hearsay. Bravinder – assuming the Township will put together a developers

agreement and, in that agreement, the road will be addressed, which includes the construction phase and damage to the roads. If rezoning doesn't happen this Commission could deal with it in the development phase. Mahlberg – hearing Bravinder is comfortable that it will get dealt with. The Township is currently relaying they do not want the road to go through. Bravinder – from a township standpoint a thru road could depend on where the road connects and if everyone would benefit. The retaining wall would be something a township may not want anything to do with, as they are very expensive to deal with and maintain. Cokato Township has 2 developments with cul-de-sacs that were specifically designed that way to keep traffic down. With this proposal there are slopes that could be difficult for the township to deal with. Mahlberg questioned what type of roads these 2 developments are located on with Bravinder stating one is on a County Road and the other is a township road with both being on traditional AG land. Mol – in Corinna Township there was a similar request on Sugar Lake with some of the same discussions. The cul-de-sac came within 10 ft. of a township road that could connect as a thru road and he recalls this Commission wanted that road to connect. At the meeting, the Corinna Township Supervisor provided reasons why they were against a thru road. He views that in this situation this request has gone to the Township 3 times and each time they have approved with a cul-de-sac if they didn't want the cul-de-sac they would have stated so. The request tonight is for rezoning with the development portion still to be discussed.

- H. Greninger questioned the last Township meeting that the staff report doesn't have. Rhineberger – explained there are no minutes as some townships send the minutes and others do not. In this case, no minutes were sent to staff, just the response form. Mol – The Township sent the formal response stating approval of what was presented. Some townships include the minutes related to that specific item. Rhineberger – a response form is not sent to the township when an item is continued. Rhineberger went on to read the Township email he received after the April meeting, which addressed the reaffirmation of rezoning with a PUD and preliminary acceptance of the road based on revised concept plans received on March 25th, 2024.
- I. Bravinder moved to recommend approval to the County Board of Commissioners to rezone the property from General Agricultural (AG) and part Residential-Recreational Shoreland (S2) to Agricultural/Residential (AR) and part Residential-Recreational Shoreland (S2) and establish a Rural Planned Unit Development District (PUD) based on the concept plan completed by Campion Engineering Services, Inc. dated 02/16/2024, Project No. 24-010, marked Exhibit “A”, because it is aligned with the goals and policies of the US Highway 12 Corridor Land Use Plan. Motion seconded by Greninger.

DISCUSSION: Rhineberger – there are two sets of plans with the same project number. One is with the open space and the other is the existing farm site as restricted. The Township received both sets of plans and in the most recent email didn't distinguish between the two. Bravinder stated he wants to go with the restricted land because that is what the Township approved on March 15th. Rhineberger – approval is based on that plan with not a large difference between the two and in the end during the development review the Commission could go with open space or restricted. Bravinder reiterated he will reference the March 15th correspondence from the Township where it mentions the restricted parcel as a preference. Rhineberger stated he would

mark the plan as Exhibit "A". Felger stated he would mostly likely vote in the affirmative because the Township has been adamant about not wanting the road to go through and that was one of his main concerns. He prefers the open space concept as it provides open space for neighboring residences and reduces the size of the horse farm. Mol – as of now the motion is with restricted land. Felger questioned if there is a point in the future when the plat is reviewed and the situation can be discussed. Rhineberger – after approval of rezoning a subdivision request would come to this Commission for discussion.

VOTE: Holland, Mol, Bravinder, Thompson, Greninger, & Felger NAY: Mahlberg

MOTION CARRIED

WRIGHT COUNTY PLANNING COMMISSION**Meeting of: APRIL 4, 2024****Staff Report**

The Wright County Planning Commission will meet on Thursday April 4, 2024, at **6:30 p.m.** in the County Commissioners Board Room at the Wright County Government Center, Buffalo, Minnesota to consider the following items:

ACTION ON MARCH 7, 2024 MINUTES**PUBLIC HEARINGS:**

1. **ZEB HANEY (Formerly ESTATE DEVELOPMENT CORPORATION)** – Cont. 10/12, 11/16, 12/14, 1/11, 2/8, 3/7

LOCATION: 11126 Eastwood Avenue SE – The NW 1/4 as well as part of the NE 1/4 lying westerly of Rice Lake in Section 35, Township 118, Range 25, Wright County, MN. (Rice - Franklin Twp.) Tax #208-200-352102, -352100, -352101. Owner: David Lubben Trust

Petitions to rezoning from rezoning from General Agriculture (AG) with a Residential-Recreational Shorelands District Overlay (S-2) to Agriculture/Residential (A/R) with a Residential-Recreational Shorelands District Overlay (S-2) and establishment of a Rural Planned Unit Development overlay district as regulated in Section 155.028, 155.047, 155.048, 155.057 & 155.059, Chapter 155, Title XV, Land Usage & Zoning of the Wright County Code of Ordinances.

- (A) The property is roughly 102 acres in size with road frontage along Eastwood Ave. SE and 110th Street SE in Franklin Township, with the eastern boundary of the property being lakeshore on Rice Lake. It is currently zoned AG-General Agricultural, with part S2-Shoreland Overlay District and part FP-Floodplain but is designated in the US Highway 12 Corridor (US 12) Land Use Plan as Rural Residential.
- (B) Today's request is to rezone the entire property from General Agriculture (AG) to Agriculture/Residential (A/R). The area of the property within 1,000 feet of Rice Lake would keep the Shoreland Overlay (S2) designation, and those areas designated as Floodplain (FP) would also remain. The proposal also includes the establishment of a Rural Planned Unit Development (PUD) district, which would allow for reduced lot sizes and width, to accommodate a clustered, more unified development. The new applicant has provided a revised concept plan that, if approved, would now be a 15-lot platted subdivision, with one of the lots being a large "restricted land" parcel that would be roughly 31 acres and include the existing dwelling, horse facilities, and pasture.
- (C) The Township has submitted a new response indicating that they have reaffirmed their recommendation to approve the rezoning, approval of the establishment of a PUD district, and preliminary acceptance that the township will take over the road. The Wright County Highway Department has responded that the developer should be aware that the bridge that connects Eastwood Ave. to County Road 16 will be replaced summer. Four neighbors have submitted letters of concern and do not support the proposal as presented
- (D) The US 12 Land Use Plan states: Rural Residential - *Designates those areas where a combination of agriculture, hobby farms and very large lot residential areas is deemed appropriate. The purpose is to provide a buffer between agricultural and other uses, and also to provide housing opportunities in a rural environment where large lot sizes and the rural atmosphere will be maintained. Existing land types may include large wooded areas, non-prime farmland, pasture and other lands in areas not well suited to long term agricultural uses. Appropriate zoning may include Agricultural, Agricultural Residential, or, in unique circumstances, R-2(a). Rezoning from Agricultural to Agricultural Residential will be considered on a case-by-case basis, and not considered to be automatic, with the need for residential land, effect on nearby agricultural operations, the timing of the proposal in light of land uses in the area, and plan policies being prime considerations.*
- (E) Currently, the adjacent properties to the west, south, and east are zoned AR-Agricultural/Residential and all are part of established PUDs.

ACTION - The Commission conducted a site inspection on November 8th. **The applicant has provided two potential plans, one with open space and one without, both with the road having a cul-de-sac in a similar location to previous requests.**

If the Commission is not comfortable with the request, staff would recommend a motion **to close the public hearing, direct counsel to prepare findings based on the record and discussion, consistent with the denial of the request to rezone, and continue the matter to April 4th.**

However, if the Commission is comfortable with the request, staff would recommend a motion **to recommend approval to the County Board of Commissioners to rezone the property from General Agricultural (AG) and part Residential-Recreational Shoreland (S2) to Agricultural/Residential (AR) and part Residential-Recreational Shoreland (S2) and establish a Rural Planned Unit Development District (PUD) based on the concept plan completed by Campion Engineering Services, Inc. dated 02/16/2024, Project No. 24-010, because it is aligned with the goals and policies of the US Highway 12 Corridor Land Use Plan.**

Hello!

Last night at our meeting we met with Zeb Haney & Kevin Miller--Eastwood Estates LLC. After discussion and their presentation of their new concept plan, Supervisor Hawkridge removed the stipulations he had made from the last meeting regarding open spaces and larger lots and made a Motion of reaffirmation of approval for the rezoning from AG to AG residential, include the recreational residential shoreland district overlay, a recommendation for a rural PUD and finally to give preliminary acceptance that the township would take over the road Hawkridge/Neumann M/S/C Unanimous.

Please let me know if there is anything else you need from me!

You don't often get email from amyprovowarner@gmail.com. [Learn why this is important](#)

CAUTION: This email originated from outside of Wright County. Do not click links or open attachments unless you verify with the sender and know the content is safe.

Hi Joshua, this email is in regards to the rezoning and sub development of 1126 Eastwood Avenue SE, Delano By Estate Development Corporation. If you are not the correct person to send our comments to could you please forward to the correct contact or reply with an email address I should use.

We are writing to express our support for the written concerns already submitted by our neighbors Jeff and Mary Sullivan and Courtney Bragg and Billy Erickson. We currently live in a very small community of houses located near the end of a quiet street. Our children freely ride their bikes along our quiet street and walk to and from friends' houses down the road with very little traffic to worry about. When we purchased our home in May 2022, one of the biggest reasons we moved here was the very quiet street and the small neighborhood. The current proposed plan to subdivide the three lots in this plan includes 11 new lots accessed from a current cul-de-sac on Eckert Ave SE. This proposed plan would triple the amount of traffic in front of our house each day. The route chosen by the developer routes traffic for 11 families 1.3+ miles around past their homes. Why? Why take 11 homes worth of traffic over a mile out of the way, making 4 extra turns. How does that make the sense for this development? The PIDS being developed have access from 2 other roads: Eastwood Ave SE & 110th St SE. The road to access this new subdivision should be located off of one of those roads. Besides being wildly inconvenient for the new homeowners, making our homes much less enjoyable with the added traffic the current proposal appears to be unsafe and hard to access for emergency services should one of those homes need them at some point in the future.

These proposed lots are not consistent with the size of the lots in the area which are typically in the 3-4 acres or 10 acre lots across 115th/Eckert Ave. Clearly the homeowner and developer are trying to maximize their profits. We know we can't stop the subdivision of properties we do not own but we do not believe this subdivision should impact our neighborhood because it's the easiest, most financially beneficial for the developer and home owner.

We ask that you please consider changing the proposed plan to access the development from Eastwood Ave SE or 110th Ave SE as well as require these new lots be a size more consistent with the surrounding areas.

Amy & Billy Warner
 4251 115th St SE
 763-245-9761

October 15, 2023

To the Wright County Zoning Board

We are Jeff and Mary Sullivan owners of the home at 4386 115th St SE, Delano and Courtney Bragg and Billy Erickson owners of the home at 4308 115th St SE, Delano.

We are writing to express concerns about the proposed zoning changes and PUD put forth by Estate Development Corporation on 1126 Eastwood Ave SE.

Because of the reasons stated below we request that the board reject the submitted rezoning plan put forth by Estate Development Corporation c/o Tom Gonyea that would rezone these agricultural parcels to agricultural residential with a Shoreland (S-2) and Rural PUD overlay.

1. The extension of Eckert Avenue and the addition of 12 homes to Eckert Avenue, vastly increases the danger to the existing homes on Eckert Avenue AND 115th Street AND Eaken Avenue AND Eastwood Avenue by doubling the traffic on a long-standing dead-end road.
 - a. A less impactful and more logistically valid road entrance off of 110th Street is available but appears not to have been chosen for lack of convenience and to maximize profit.
2. Both the extension of Eckert and potential destruction, change in use, and change in access to the existing natural areas, terrain, and open space, substantially decrease the value of ALL existing homes surrounding the proposed development.
3. The size of lots, use of the land, and road access is not consistent with the surrounding community and is not designed in harmony with it.

As residents of Rice Lake Retreat and as owners of property that directly abuts the proposed development, which is currently agricultural, forest, and fresh water emergent wetland, we have multiple concerns about how the proposed changes and development would affect our safety and property value. We are not only concerned for our individual property, but we are also concerned about the safety, utilization, and property values of the 25 home properties surrounding the proposed development to the South and east along Eastwood Ave SE, Eaken Ave SE, 115th St SE, and Eckert Ave SE.

Our concerns have to do with the overly large impact this proposal would have on the existing families. We also believe that many aspects of this proposal do not align with the ordinances and regulations of the county and state. The impact and statutory alignment issues are discussed in detail below.

Mr. Otto stated in the October 12th meeting of the Zoning Board that they “wanted to maintain the integrity of the horse farm”. If the integrity of the horse farm is the main concern then we question why lots 2 and 3 are planned within existing pasture land. (7.8 acres).

We implore this Board not to let the profit motives of a single wealthy family endanger, and vastly alter, the value of the existing community and the 25 homes that surround this proposed development. We would submit to you that the ‘integrity’ of the many already existing families and homes outweighs the integrity of one person’s horse farm.

If not rejected in its entirety, specifically we request these changes be made to the plan:

1. For safety and traffic pattern reasons, move the entrance of the road to 110th St SE for the 11 homes on the south side of the proposed develop and directly adjacent to Rice Lake Retreat.
2. Create use covenants on the proposed open space that maintain its natural state and use and that the size of the open space meet the state minimum requirements of 50% of the development
3. Increase the lot size much closer to 4 acres each, so they are consistent with the surrounding communities.
4. Reconsider the actual scope of the PUD, excluding lots 1, 2, and 3 as they have no access to the common space with no connection to those lots other than they happen to be on the existing parcels.
5. Per the statute, incorporate lot 15 (4.4 acres) to preserve the unique natural amenities such as wooded cover.
6. Per the statute, require a written proposal of how the open space would be utilized.
7. Per the statute, require a map be drawn of expected building locations, utilities etc. on all new lots.

We make these requests based on the following:

For safety and traffic pattern reasons, move the entrance of the road to 110th St SE for the 11 homes on the south side of the proposed develop and directly adjacent to Rice Lake Retreat.

- *Per Wright County Zoning ordinance 155.059(E)(4) "The variances will not constitute a threat to the property values, safety, health and general welfare of the owners or occupants of adjacent or nearby land, nor be detrimental to the health, safety, morals and general welfare of the people of the county."*
 - **Extending Eckert Ave from the existing cul-de-sac into the new development does not meet this standard and jeopardizes the safety and property values of all homes in Rice Lake Retreat and the surrounding parcels:**
 - Homes (13 original homes) built in the Rice Lake Retreat development have been located on a dead end and were built with the assumption of a dead end. Families expect little traffic on these roads and thus they are utilized in such a manner.
 - **The safety of 25 homes are affected by this change.**
 - With the addition of 11 homes accessing Eckert Ave by extending the dead end through them, the traffic within the entire development will be, at minimum, doubled. This greatly increases the danger of residence within the Rice Lake Retreat development. (Which houses 13 of the 25 affected homes.)
 - This also greatly increases the traffic to the roads surrounding the proposed development.
 - This also increases the danger to the other 12 homes located on Eaken Ave, Eastwood Avenue and newly added on 115th Street SouthEast.

- **This proposal vastly alters the expectations and historical use of all of Rice Lake Retreat and the other 14 homes surrounding the proposed development.**
 - As Rice Lake addition was developed 20 years ago there is no expectation of current homeowners of growing the addition into a larger dead-end development.
 - Musings of the original surveyor of Rice Lake Retreat regarding future use of abutting land has no bearing on the historical use and/or expectations of the residence of Rice Lake Retreats
 - At the October 12th board meeting on this subject, Mr. Otto pointed out that the current cul-de-sacs on Eckert Ave were drawn straight in the original rice lake edition plot maps and labeled as future through streets, as designed by his father.
 - What Mr. Otto's father labeled a future intent of other properties 20 years ago holds no bearing today.
 - We are here because the land in question is agricultural, and we are deciding if it should be something different today.
 - We do not believe that there is current value of the musings of a surveyor from the 1990s regarding future use of land with which he had no control.
 - In addition, the current road end is paved and circular which indicates a cul-de-sac or road end.
 - There are no end of road barriers or signage indicating expected future expansion or prior use as a road.
 - **Because this road abuts agricultural land, it currently cannot be extended because it is zoned as agricultural and used as such.**
- **There is no master plan that shows Eckert Ave continuing -- nor was there ever.**
- **Accordingly, all existing Rice Lake Retreat homes will be devalued based on the number of homes and traffic.**
 - The value of the homes who currently enter their homes on the cul-de-sac are overwhelmingly de-valued because of the cul-de-sac moving.
 - However, all homes in Rice Lake Retreat are devalued because of the traffic and loss of surroundings.
 - Finally, the surrounding homes are all devalued because of the increase in traffic.
- *Per Wright Count Zoning Status 155.059(E)(5) on variances "It shall be determined that the variances are required for a reasonable and practical physical development according to a comprehensive development plan and are not required solely on the basis of financial considerations."*
 - **The proposed plan does not meet this statute for the following reasons:**
 - Access to the proposed lots from Eckert Avenue is extremely inefficient access for the residence.
 - For the new residence to access their property from the North (Delano) or East (Minneapolis) or to the existing residence in Rice Lake Retreat and the surrounding properties, the new residence would have to drive west on 110th, North on Eastwood, North on Eaken, West on 115th, and, finally, north on Eckert.

- This increases the mileage driven by over 1 mile each way.
 - Approaching from the North or East is the most likely approach pattern given school district, work location, and amenities available.
 - This is an extremely inefficient and illogical traffic pattern that has been accepted by existing residence but does not need to be encouraged for future use.
 - The best and most logical access point is directly from 110th St, removing Eastwood, Eaken, 115th, and Eckert from the driving pattern.
- **It appears that the expansion of Eckert is one of convenience and financial consideration.**
 - **We agree that it is most ‘convenient’ to expand Eckert Ave. However, as we as stated previously, it is the most detrimental choice that they could make.**
 - *Per Mr. Otto in the October 12th zoning meeting, “We wanted to maintain the integrity of the horse farm.”*
 - To our knowledge, horse farm integrity is not a county, township, or local goal.
 - Therefore, we can only conclude that the reason for this is for maximum financial gain of the owner of the horse farm.
 - If the integrity of the horse farm is the main concern, then we question why lot 2 and 3 (7.8 acres) are taking over a current grazing pasture. In addition, the planned cul-de-sac is located directly next to the outdoor riding arena.
 - Per the statute one cannot make zoning decisions based on financial considerations.
 - This appears to be a choice based solely on financial considerations.
- Create use covenants on the open state that maintain its natural state and use and that the size of the open space meet the state minimum requirements of 50% of the development.
 - *Wright County Zoning status 155.059(1)(2) “(2) The following standards shall be used by the Planning Commission to review the provision of common open spaces. (a) The location, shape, size and character of the common open space must be suitable for the planned development. (b) Common open space must be used for amenity, or recreational purposes. The uses authorized for the common open space must be appropriate to the scale and character of the planned unit development, considering its size, density, expected population, topography and the number and type of dwellings to be provided. (c) Common open space must be suitably improved for its intended use, but common space containing natural features worthy of preservation may be left unimproved. The buildings, structures and improvements which are permitted in the common open space must be appropriate to the uses which are authorized for the common open space and must conserve and enhance the amenities of the common open space having regard to its topography and unimproved condition.”*
 - **The statute above is not being met by this plan.**
 - Mr. Otto and the Developer, Mr Gonyea, stated at the October 12th meeting that they did not know how the common space would be utilized and the ‘it would be up to the homeowners.’

- **We request that the common space be left natural and cannot be improved.**
- *Wright County Zoning Statute 155.059(B)(3)(b) “The planned unit development is an effective and unified treatment of the development possibilities on the project site and the development plan provides for the preservation of unique natural amenities such as streams, stream banks, wooded cover, rough terrain and similar areas.”*
 - **Our properties, 4386 and 4308 115th St SE, abut directly to the proposed common space, which is large portion of the value of our property.**
 - The current proposed open space is part contains 17.54 acres of fresh water emergent wetland as deemed by the Minnesota Department of Natural Resources.
 - In addition, the emergent wetland area appears to be contiguous with existing property, regardless of the property lines.
 - Altering any of the open space and or views through the open space severely de-values the perception of that emergent wetland complex, thus our property value
 - **Currently only a single owner has access to the land, and it is unusable as farmland. The proposed plan changes this from a single use area to a common space available to as many as 15 homeowners. The greatly alters how this land is currently utilized and or could be utilized.**
 - Use of the land by that number of additional people effectively changes this space to a park or a recreational area versus a nature preserve.
 - It is impossible for users of this common area to recognize where the property lines are and they will likely cross onto my land, which is not a community park.
 - This alters the value of our property.
 - **The existing properties (5 total) that border the contiguous proposed open space, would have no access to, control of, nor comment on what happens within the proposed open space.**
 - **We request that the current nature of the open space be protected and that limits be placed on the use of it that may alter the surrounding perception of that common space.**
 - These covenants should prohibit:
 - Motorized or electric vehicles
 - Shooting ranges
 - Hunting of any type
 - Trapping
 - Alterations of topography, trees, or land
 - Buildings
 - Cutting or landscaping
 - Or anything that would change the current state of the open space.
- Wright County Zoning Statute 155.059 A (PUD Purpose) states that if any zoning rules are more restrictive then the stricter standard will apply. Accordingly, Minnesota Rules Part 6120.3800 Subpart(5)(B)(2)(a) regarding Planned Unit Development states that 50% of the total project area must be preserved as open space.
 - **The 50% threshold is not met with this proposed plan. Only 30% of the land is reserved for open space.**

Increase the lot size much closer to 4 acres each, so they are consistent with the surrounding communities.

- *Per Wright Counting Zoning Statute 155.059(B)(3)(c) “The planned unit development can be planned and developed to harmonize with any existing or proposed development in the areas surrounding the project site”*
 - **As Rice Lake Retreat was developed over 20 years ago, there is no expectation of the current homeowners of growing the addition.**
 - The extension of Eckert Ave creates the impression that it is an expansion of our existing development.
 - However, the intent, size, value, and use do not correspond with how the land in Rice Lake Retreat is currently being utilized nor do current Rice Lake residents have any say over how the attached development will utilize the land.
 - **The proposed lot size is not in harmony with the surrounding home sites.**
 - Currently 92% of the surrounding homes (23 out of 25) are GREATER THAN 3 acres.
 - The proposed development section that connects to Rice Lake Retreat consists of 11 home sites of which 73% are LESS THAN 3 acres (8 out of 11).
 - **This need for consistency has been recognized by this developer in the past as he recently developed the parcel of land on the west end of Rice Lake Retreat (corner of 115th St and Eaken Ave, within the last 2 years and each of those lots is great than 4 acres (6 out of 6 home sites).**

Per the statute, incorporate lot 15 (4.4 acres) to preserve the unique natural amenities such as wooded cover.

- *Wright County Zoning Statute 155.059(B)(3)(b) “The planned unit development is an effective and unified treatment of the development possibilities on the project site and the development plan provides for the preservation of unique natural amenities such as streams, stream banks, wooded cover, rough terrain and similar areas.”*
 - **Lot 15 is currently unfarmed and has dense wood cover and adjacent to an existing pond.**
 - Therefore, per the statute, this land should be preserved in its natural state.

Per the statute, require a written proposal of how the open space would be utilized.

- *Write County Zoning Statute 155.059(F)(4)(e) “(4) The written statement to accompany the outline development plan must contain the following information: (e) Proposed uses and ownership of undeveloped land and common open space.”*
 - **There is no written statement related to how the proposed undeveloped land and common space would be utilized.**
 - Mr. Otto and the Developer stated at the October 12th meeting that they did not know how the common space would be utilized and the ‘it would be up to the homeowners.’

- This is related to our concern on covenants and use of the common space in prior comments.
- Without these details it is extremely difficult to understand the impact to the surrounding pieces of property.

Per the statute, require a map be drawn of expected building locations, utilities etc. on all new lots.

- *Write County Zoning Statute 155.059(F)(3)(b) "The maps which are part of the outline development plan may be in general schematic form, and must contain the following information:...(b) Existing and proposed land uses and the approximate location of buildings, lots, utilities and unique development features of the site;"*
 - **There is no map of expected building locations, utilities etc. on the new lots per**
 - Details on the proposed map show no expected building locations, sewer systems, utility access etc.
 - Without these details it is extremely difficult to understand the impact to the surrounding pieces of property.

Reconsider the actual scope of the PUD, excluding lots 1, 2, and 3 as they have no access to the common space with no connection to those lots other than they happen to be on the existing parcels.

- **As this board considers how this proposal fits with the PUD statutes, it is important to consider what area should be encompassed in the PUD.**
- **When looking at the proposal, Lots 1, 2, and 3 are not contiguous with the proposed homes on the cul-de-sac. In fact, they have little in common with the cul-de-sac homes.**
 - They do not have direct access to the common space nor are they contiguous with the proposed cul-de-sac homes.
 - One can logically see that this section of the property is completely different from those on the proposed cul-de-sac.
- **We do not believe that the PUD should encompass the entire existing 3 large land plots simply because they are under common ownership.**
- **Any separate usage, such as lots, 1, 2, 3, and 4 should be considered separately for zoning purposes as they are designed for separate purposes.**

Subject: Procedural concerns for PUD consideration

Some people who received this message don't often get email from sullyjam28@gmail.com. [Learn why this is important](#)

CAUTION: This email originated from outside of Wright County. Do not click links or open attachments unless you verify with the sender and know the content is safe.

Mr. Rhineberger and Mr. Kryzer:

My name is Jeff Sullivan and I live at 4386 115th St SE. Our property directly abuts the parcel referenced in the PUD overlay request from Real Estate Development Corporation that is scheduled to be discussed again with the Planning and Zoning Commission on December 14, 2023.

At past Planning and Zoning Commission meetings, I have spoken regarding our objection to this PUD request. I've also been a part of lengthy comments on why this proposal does not meet the statutory requirements and why it will negatively impact the neighborhood despite there being less impactful alternatives.

I'm not writing to expand on those comments, as nothing has changed with the plan or the thoughts of the large neighborhood contingent opposing this plan.

The following comments are not comments on the community value of the concepts within the proposal. These comments are about how the Commission functions. I expect that every request will follow the statutorily-directed procedure, and I am concerned that, in this case, the procedures are not being followed.

This PUD overlay request from Real Estate Development Corporation has been discussed twice previously with the Commission, and it is currently on the agenda for the December 14, 2023 Planning and Zoning Commission meeting. After reading the section of the ordinance dictating the process by which a PUD overlay request can be put forth for Commission review, it is difficult to conclude that this application for PUD meets the standards for consideration.

Therefore, I ask that you guide the commission regarding this application in a manner which allows them to comply with the ordinance, which, in my mind, would be to ask them to reject the request and stop consideration of the application for PUD. Also, pursuant to statute 155.028(B)(5), instructions should be given to the applicant that they cannot apply for another variance regarding these parcels for a year.

I was advised in the last Commission meeting that it was premature to comment on violations of section 155.059(F) "Procedure; establishment of PUD". However, this section of the ordinance clearly defines the first step in any consideration of a PUD. All 11 requirements in this section need to be met prior to the board performing any review.

Currently, at maximum, 4 of the 11 requirements for a valid application and consideration of a PUD plan have been satisfied by this application. In a less generous reading, only 3 of the 11 requirements have been satisfied. Yet, the Commission has considered the proposal and is anticipating further consideration.

I quote the section of the ordinance below in ***bold italics***. I've put in **red** the requirements that are not met. The plain bulleted text is the factual assessment of compliance of the proposal with the statutory requirements.

(F) Procedure; establishment of PUD.

(1) General procedures for the establishment of a PUD district shall be the same as for rezoning, as outlined in § 155.028 of this chapter. In addition, applications for the establishment of a PUD District shall be accompanied by an outline development plan.

- I assume what has been submitted is the applicant's version of an outline development plan.

(2) An outline development plan must include both maps and written statements, and must show enough of the area surrounding the proposed planned unit development to demonstrate the relationship of the planned unit development to adjoining uses.

- No drawing of the PUD and the surrounding area exists.
- Two drawings exist.
 - One drawing of the PUD contains no indication of how it fits in the surrounding land.
 - A second drawing of the 3 large original agricultural parcels also was sent to residents. It does show some surrounding land.

(3) The maps which are part of the outline development plan may be in general schematic form, and must contain the following information:

(a) The general topographic character of the land;

- This appears to exist in the simple drawing of the PUD plan.

(b) Existing and proposed land uses and the approximate location of buildings, lots, utilities and unique development features of the site;

- The PUD map contains indications of lots and roads, but it does not contain indications of buildings, utilities, and unique development features.

(c) The location of existing and proposed roads; and

- This appears to exist in the simple drawing provided.

(d) Public uses, including schools, parks, playgrounds and other open spaces.

- Open space is defined but not at the level of understanding of what it will contain.
- Mr. Otto and Mr. Gonyea stated that they had no idea how the open space would be used.

(4) The written statement to accompany the outline development plan must contain the following information:

(a) An explanation of the character of the planned development and the manner in which it has been planned to take advantage of the planned development regulations;

- No written statement on the character of the development is provided.

(b) A statement of the present ownership of all of the land included within the planned development;

- I have not seen a statement of ownership and the ownership appears to be unclear.
- This application was brought by Real Estate Development Corporation, but the public property records indicate that all 3 parcels are owned by David Lubben REVTR.

(c) A general indication of the expected schedule of development including progressive phasing and time schedules;

- No schedule is outlined.

(d) A statement of preliminary approval from the township board, which indicates that any proposed roads will be accepted as township roads; and

- Franklin Township has not approved the plan per October Township meeting minutes and per December Franklin Township meeting.

(e) Proposed uses and ownership of undeveloped land and common open space.

- No statement of uses and ownership of undeveloped land and common space is provided.
- In the October meeting of this Commission, Mr Otto and Mr Gonyea stated that they had no idea how the open space would be utilized.

(5) After review by the Planning Commission, the outline development plan shall be submitted to the County Commission for its final decision on establishment of the PUD District.

Based on the comparison analysis, this application for the establishment of a PUD is incomplete, thus invalid. All consideration should stop. I suggest that the Commission be directed to deny the application based on their duty to follow the ordinance.

As legal counsel and administrator of the Commission, you two are in the best position to guide the Commission toward meeting their legal obligations. I would encourage you to do so.

Thank you,

Jeff Sullivan

Dear Wright County officials,

My name is Jacqueline Ryan and I am a resident of "Krinkyville" in Franklin Township. It has come to my attention that a neighbor is seeking an exception to the zoning and codes of our community and I would ask that you do not grant this exception. Unfortunately I cannot attend this meeting today, October 15th, 2023, and so I write this humble letter to ask you not to allow this action to move forward.

The concern at top of mind is that there are many children in our neighborhood, just houses away from the property in question, and our top priority ought to be the consideration of their safety. My second concern is that our neighbor did not seek the appropriate permits prior to starting the operation but, instead, flouted the rules. If this person is willing to break the rules here, what others are they willing to break? This is very disturbing to me. It ought to disturb anyone else, as well. That this person even thought these actions are a good idea is a mystery to me.

Thank you all for your time and consideration. I appreciate the work you do and I hope the right and reasonable decision is made in regard to this matter.

Sincerely,

Jacqueline M. Ryan

RE: Development Plans of the David Lubben Estate

I am writing to share my thoughts regarding the development of the David Lubben Estate in Franklin Township. I am a long-time resident of the neighborhood formally known as Rice Lake Retreat and live near the intersection of 115th St SE and Eckert Ave SE. I have lived here since December of 2008 and other than the Tom Mittelstaedt Family have lived here the longest. Since moving in we have watched the neighborhood grow from 3 houses to 9 and are presently watching the addition of 3 more homes and anticipating the building of 5 more homes on the Clyde Rumpza farm.

I have multiple concerns about the proposed access to an additional 11 homes coming through the North end of Eckert Ave SE vs being accessed directly off 110th St SE. My biggest concern is regarding increased traffic on my road. I assume that each of the 11 homes that are being built on the Lubben Estate will have a minimum of 2 drivers but possibly more. For the sake of simple math, I will use 2 drivers per house. I assume that each house will have each driver come and go from their house 2x per day. I am expecting then to see an additional 44 cars drive on my road daily- in a year that equals over an additional 16,000 trips. We haven't even experienced the increased traffic from the home builds already in progress.

The increase in traffic concerns me personally because I have children that regularly ride their bikes on the road- which is not a road with a posted speed limit. There is no lighting and no sidewalk. I personally also enjoy running in the mornings- this is one of my favorite things about living in the country. I am also significantly concerned about the wear and tear on the pavement. Every year since being paved Eaken Ave SE bubbles into massive potholes just past where it forks off Eastwood Ave. The same situation is also an issue at the intersection of 110th and Eastwood. The road already does not tolerate the change of seasons and traffic as is- it would not do well with 16,000 more trips per year. I believe this would create an excessive increase in expenses to maintain when the new proposed development could easily be accessed off 110th and completely avoid travel on these roads. My calculations also do not include the significant amount of traffic and damage done by construction vehicles. Additionally, the area of Eastwood Ave where the road takes a significant turn in front of Mr. Lubben's home sees a decent number of cars in the ditch each year. This is a safety concern of mine as well with increased traffic. This road was originally paved with funding from assessments to the residents in my neighborhood as well.

Lastly, selfishly, I don't believe the increased car passages will increase the value of my home but rather decrease it. I moved to the country 15 years ago to have space and solitude. This will rob me of this luxury and financially tax my investment. Mr. Lubben is the only person financially benefiting from this development. The access can certainly come through the other end of his property.

In addition to changing the access, I would also like to ask that the proposed lots be increased in size to be comparable to the standard of the neighborhood and minimally be of like value.

Sincerely,

Dr. Kelly Thompson

Delano, MN 55328
763-972-3447

Franklin Township:

We live at 11515 Eckert Avenue SE and our property sits on the cul-de-sac adjacent to the proposed development. We are against the proposed rezoning/development that would extend our road. By extending the road our home would decrease significantly in value and most importantly, it increases the danger to our children with the with increase in traffic, speed with only one entrance and exit far from these proposed homes. Please take our current neighborhood opinions and suggestions into account for decision making.

Sincerely,

Bradly and Christy Gotto

RE: Development Plans of the David Lubben Estate

My name is Brad Beyer, I live at 11572 Eckert Ave. SE, Delano, MN 55328, with my wife and 3 children, within what I know as the Rice Lake Retreat Development.

Like many others, I echo the concerns regarding the environmental impact, current infrastructure, and negative financial impact this will likely have on those currently living near this proposed development.

Regarding environmental concerns, it's common to see eagles, deer, turkeys, and waterfowl just to name a few, in and around the entire development as it's adjacent to Rice Lake and a heavily wooded area. With the original larger lot sizes, along with those most recently approved at the entry point to our development, there is common ground between us, wildlife, and the surrounding natural environment. The proposed development (made up of several smaller lots) is situated at the entry point of the river that flows into Rice Lake and will likely destroy much of that natural habitat, which makes the surrounding community special. Have any environmental studies been considered, especially regarding Spring flooding which historically has consumed some of what is being considered for development? With the destruction of this much natural environment, things like land degradation and habitat destruction need to be considered, as well as soil and groundwater contamination.

Regarding the current road/infrastructure within Rice Lake Retreat, it certainly isn't a typical paved road. I believe it was originally funded by many of those living here at the time. It is common to see bubbling/indentations from large construction equipment near the current intersections (115th, Eaken Ave. SE/Oxford, and Eastwood/Deagan) where the roads meet. How will they hold up with ~3x the amount of traffic? Most importantly, there are very few signs, no speed limit postings, or street lighting whatsoever...we like it this way, and I certainly don't want them. I sincerely enjoy seeing horses being ridden, kids playing, and riding their bikes freely! If it is decided to route through Eckert Ave SE, it won't be a matter of if someone gets hurt, but instead when and how badly! We moved our family to this home in 2020 specifically because of the quiet neighborhood and dead-end road. Our house in particular (located at the intersection of 115th and Eckert Ave SE) now loses the privacy we moved here to enjoy by routing all traffic towards and in front of our driveway which is also the neighborhood bus stop.

If this new development moves forward, our request is simple - please do not route traffic through our quiet neighborhood. It would be preferable to all current homeowners in the neighborhood to create an entry/exit from 110th Ave, Eastwood Ave or near Mr. Lubben's current driveway. Both developments would win, and it would be much safer! I would imagine the current proposed route of entry/exit is Mr. Lubben's request, to protect what is remaining of his horse farm based on the same points/concerns I've stated above. The routes I've proposed would be in the greater good of the community as a whole, and not just Mr. Lubben. I understand the need for a community to grow sustainably, however, the negative effects of this will far outweigh the short-term financial gain by Mr. Lubben and the Estate Development Corporation.

Sincerely,

Brad Beyer

Hello Barry - thanks again for taking the time to talk with me over the phone on Tuesday. Our neighborhood group met yesterday and have a few short questions for you.

1. Is the meeting at 6:30 (this is what we see on the website but believe this is earlier then previous meetings)?
2. In item 2B of the Staff Report there is reference to this property being within 1,000 feet of Sheldon Lake giving it an S2 designation. Should this be Rice Lake? If not, where is Sheldon Lake?
3. One of our residents is going to speak tonight regarding safety and response times and would like to share the attached PDF with the committee. Is it too late to provide to you via email to share on screen at the meeting? Should we print out multiple copies to provide directly at the meeting?

Thank you again for your continued assistance with this matter.
 Courtney Bragg

Courtney,

I have attached the latest revision provided by Mr. Haney. The preliminary report was completed prior to that plan being provided to us and reflects the original plan provided by Estate Development. An outlot is a parcel or property within the development that does not contain a building right but was created for common open space usable by property owners in the development or sometimes as parcels that get attached to neighboring property for things such as access. The new plan that was presented to this office does not include any outlots or open space, but rather a large "restricted" agricultural property that encompasses the existing dwelling, buildings, and paddocks/pasture. This plan is similar to the development to the south, which was approved as a PUD with what is now the Warner property (old farmstead) being the restricted parcel.

Hello Barry and Josh - Can one of you please send the updated plan that Zeb developed.

Also, I see in the Preliminary Staff Report for March 7th, if approved, an application for a 17-lot platted subdivision, which would include 15 buildable lots and two outlots, would follow.

What are outlots? Are those shown on the plan?

Board Action Requested (this is what will appear on the Agenda) *

Accept the Multipurpose Drainage Management (MDM) Grant from the Minnesota Board of Water and Soil Resources (BWSR) Submitted by the Wright Soil Water Conservation District (SWCD) for County Ditch #19 for \$215,000

Short Title (what will appear on Agenda outline – 250 character max.) *

Accept the Multipurpose Drainage Management (MDM) Grant from the Minnesota Board of Water and Soil Resources (BWSR) Submitted by the Wright SWCD for County Ditch #19 for \$215,000

Value Stream the request primarily aligns with:

Empower Use of Land, Property, and the Environment

Briefly describe how the request aligns with the selected value stream.

Describe the impact on staffing resources.

The Wright SWCD submitted the grant on behalf of the Drainage Authority, and will complete all design, admin, and construction oversight work for the project with Ag & Drainage staff assisting as needed.

Fiscal Impact:

10% required match will be paid for by our Ditch BMP allocated funding, so no assessments for this project will be made and thus no costs assessed to the benefited landowners of County Ditch #19.

Background/Justification:

In January of 2023 staff made a request to apply for a Multipurpose Drainage Management (MDM) Grant for County Ditch #19 to address significant erosion along the outlet of the system. This application request was approved by the Drainage Authority and an application was submitted in December of 2023. Staff from the Wright Soil and Water Conservation District submitted this grant in 2023 on behalf of the Drainage Authority and received confirmation from the Minnesota Board of Water and Soil and Resources (BWSR) that our application for \$215,000 was successful.

PTMAApp reductions for the proposed projects comes to 203.5 tons of sediment and 346.5 pounds of nitrogen per year. The HydroCAD outflow hydrograph also shows a near 90% peak flow reduction for the treated portion of the watershed.

This grant requires a 10% match that will be covered by project funds dedicated to water quality projects along ditch systems. No assessment will be made to the benefited landowners of County Ditch #19 for any costs associated with this project. Part of the \$215,000 application request includes engineering costs for design, bidding, and construction oversight which will be completed by the Wright SWCD with some assistance for Ag & Drainage staff as needed.

Board Action Requested (this is what will appear on the Agenda) *

Accept the Multipurpose Drainage Management (MDM) Grant from the Minnesota Board of Water and Soil Resources (BSWR) Submitted by the Wright SWCD for Joint Ditch #15 for \$500,000.

Short Title (what will appear on Agenda outline – 250 character max.) *

Accept the Multipurpose Drainage Management (MDM) Grant from the Minnesota Board of Water and Soil Resources (BSWR) Submitted by the Wright SWCD for Joint Ditch #15 for \$500,000.

Value Stream the request primarily aligns with:
Empower Use of Land, Property, and the Environment

Briefly describe how the request aligns with the selected value stream.

Describe the impact on staffing resources.
The Wright SWCD submitted the grant on behalf of the Drainage Authority and all engineering work is to be completed by Houston Engineering. Payment for Engineering is eligible through this grant and will save staff time/resources.

Fiscal Impact:
This grant requires a 10% match which will be paid for by another federal grant already granted for this project. No assessments for this project will be made to the benefited landowners on Joint Ditch #15.

Background/Justification:
Staff made a request and received approval from the Drainage Authority to apply for a Multipurpose Drainage Management (MDM) grant through the Board of Water of Soil and Resources (BWSR) in 2024. This grant application was completed for Joint Ditch #15 and contained a request for \$500,000 for a wetland creation/enhancement along this ditch system. The Wright Soil and Water Conservation District (SWCD) applied on behalf of the Drainage Authority and has received notice that our grant application was successful.

This grant requires a 10% match that will be covered by federal grant funding already received for this project. No assessment will be made to the benefited landowners for this project, and construction is anticipated to begin in May-June of 2024. Engineering expenses were eligible through this grant, so Houston Engineer Inc. will complete the construction oversight of this project to reduce the need for staff time. Staff will continue to maintain the Joint Ditch #15 buffer area along this project as mandated by drainage law.

Board Action Requested (this is what will appear on the Agenda) *

Review a Repair Request Submitted by a Benefited Landowner on County Ditch #30 Pursuant to Minn. Stat. 103E.715 and Determine if the Drainage System Needs Repairs.

Short Title (what will appear on Agenda outline – 250 character max.) *

Review a Repair Request Submitted by a Benefited Landowner on County Ditch #30

Value Stream the request primarily aligns with:

Empower Use of Land, Property, and the Environment

Briefly describe how the request aligns with the selected value stream.

Describe the impact on staffing resources.

Staff time was spent reviewing the petition. Additional staff time will be needed if the repairs are approved.

Fiscal Impact:

All cost for repairs on county ditch systems are assessed to the benefitted landowners of that ditch system alone.

Background/Justification:

Staff received a repair petition from a benefitted landowner on County Ditch #30 (CD 30) on 4/5/2024. When a repair request is submitted by a benefitted landowner pursuant to Minnesota Statute 103E.715 the Drainage Authority must hear said petition within 10 days after the petition is filed. Staff has included the petition, a brief summary of the CD 30 system, and a pdf of Minn. Stat. 103E.715 for your review.

Now that the petition has been filed, the Drainage Authority must determine if "the drainage system needs repair". As with any repair, review is needed to determine what constitutes a legal repair prior to ordering any work or to determine if the ditch does in fact need to be repair. Staff believe this would be best accomplished by completing a survey of the ditch system to determine the amount of sediment accumulation their is above the legal ditch grade, and to determine if culvert are the correct size and at the correct elevation. This would include additional costs to the benefitted landowners along CD 30 but will be necessary prior to ordering a repair as a large wetland exists along this system.

Staff is confident that after legal review the Drainage Authority may order repairs on the County Ditch #30 ditch system contingent on this results of a survey/review to determine the legal ditch grade also know as the As-Constructed and Subsequently Improved Condition (ACSIC) of the ditch. The Drainage Authority may authorize staff to have this work completed if they determine the ditch is in need of repair pursuant to Minn. Stat. 103E.715 Subd. 2.

Staff recommends the Drainage Authority direct staff to prepare a resolution to reestablish the drainage system records pursuant to Minn. Stat. 103E.101 Subd. 4a and present the resolution for consideration on May 7, 2024.

County Ditch #30 Review

4/8/2024

History:

County Ditch #30 is in Cokato Township and has an outlet that runs under County Road #3. It was originally established in 1916 and is an open ditch approximately 2 miles in length.

In 1983 County Ditch #30 went through an Improvement, and thus a Redetermination of Benefits, to gain additional system capacity. Since an improvement increases the capacity of the ditch system, landowners must go through a significant process under Minnesota Statute 103E.215 to accomplish this. This requires 26% of landowners to petition, a repair report to be created by an engineer, and a new Redetermination of Benefits.

The improvement on County Ditch #30 was ultimately successful and the project was completed in 1984. This work included excavation, private crossing, public crossings, side inlets, seeding, and damages. Upon reviewing the *Engineers' Final Report* staff found unique aspects of the project that must be discussed.

Private Crossings:

Typically, private crossings are paid for and maintained by the landowners who install them. In the case of County Ditch #30, four private crossings were removed, and new ones installed and paid for by the ditch system. One of these crossing needed emergency repairs in 2023, and thus was replaced with the ultimate costs going to the benefitted landowners.

Legal End of Ditch System:

The current alignment of the ditch system in Beacon has ditch ending approximately 1,500ft east of County Road #3. In the *Engineers' Final Report* from 1984 the engineer lists the end of the improvement as the County Road #3 culvert (Station 0+00). More research comparing what was established in 1916 versus what was improved in 1984 will be needed if repairs are needed east of County Road #3.

Summary:

County Ditch #30 has been well maintained when it comes to trees. Staff does spray this system every year, but much of it is free of trees and was leveled well enough to allow access with large equipment. Staff has partner with the Wright SWCD to install many grants funded projects such as side inlets, berms, and Water and Sediment Control Basins (WASCOBs) on this ditch to prevent erosion. The system is very deep and much of the outlet requires a long-reach excavator to reach the bottom. Past surveys from a previous Ditch Inspector shows a private culvert may have been place too high and is cause flooding upstream. This ditch should be surveyed with GPS grade equipment to determine if repairs/replacements are needed along the systems. More legal review of the improvement in 1984 is also needed prior to repairs.

103E.715 REPAIR BY PETITION.

Subdivision 1. **Repair petition.** An individual or an entity interested in or affected by a drainage system may file a petition to repair the drainage system. The petition must state that the drainage system needs repair. The auditor shall present the petition to the board at its next meeting or, for a joint county drainage system, to the drainage authority within ten days after the petition is filed.

Subd. 2. **Engineer's repair report.** If the drainage authority determines that the drainage system needs repair, the drainage authority shall appoint an engineer to examine the drainage system and make a repair report. The report must show the necessary repairs, the estimated cost of the repairs, and all details, plans, and specifications necessary to prepare and award a contract for the repairs. The drainage authority may give notice and order a hearing on the petition before appointing the engineer.

Subd. 3. **Notice of hearing.** When the repair report is filed, the auditor shall promptly notify the drainage authority. The drainage authority in consultation with the auditor shall set a time, by order, not more than 30 days after the date of the order for a hearing on the repair report. At least ten days before the hearing, the auditor shall give notice by mail of the time and location of the hearing to the petitioners, owners of property, and political subdivisions likely to be affected by the repair in the repair report.

Subd. 4. **Hearing on repair report.** (a) The drainage authority shall make findings and order the repair to be made if:

(1) the drainage authority determines from the repair report and the evidence presented that the repairs recommended are necessary for the best interests of the affected property owners; or

(2) the repair petition is signed by the owners of at least 26 percent of the property area affected by and assessed for the original construction of the drainage system, and the drainage authority determines that the drainage system is in need of repair so that it no longer serves its original purpose and the cost of the repair will not exceed the total benefits determined in the original drainage system proceeding.

(b) The order must direct the auditor and the chair of the board or, for a joint county drainage system, the auditors of the affected counties to proceed and prepare and award a contract for the repair of the drainage system. The contract must be for the repair described in the repair report and as determined necessary by the drainage authority, and be prepared in the manner provided in this chapter for the original drainage system construction.

Subd. 5. **Apportioning repair cost for joint county drainage system.** For the repair of a joint county drainage system, the drainage authority shall, by order, apportion the repair cost among affected counties in the same manner required in the original construction of the drainage system.

Subd. 6. **Repair by resloping ditches, incorporating multistage ditch cross section, leveling spoil banks, installing erosion control, or removing trees.** (a) For a drainage system that is to be repaired by resloping ditches, incorporating a multistage ditch cross section, leveling spoil banks, installing erosion control measures, or removing trees, before ordering the repair, the drainage authority must appoint viewers to assess and report on damages and benefits if it determines that:

(1) the resloping, incorporation of a multistage ditch cross section, spoil bank leveling, installation of erosion control measures, or tree removal will require the taking of any property not contemplated and included in the proceeding for the establishment or subsequent improvement of the drainage system; or

(2) any spoil bank leveling or tree removal will directly benefit property where the spoil bank leveling or tree removal is specified.

(b) The viewers shall assess and report damages and benefits as provided by sections 103E.315 and 103E.321. The drainage authority shall hear and determine the damages and benefits as provided in sections 103E.325, 103E.335, and 103E.341. The hearing shall be held within 30 days after the property owners' report is mailed. Damages must be paid as provided by section 103E.315 as a part of the cost of the repair, and benefits must be added to the benefits previously determined as the basis for the pro rata assessment for the repair of the drainage system for the repair proceeding only.

Schedule a Ditch Committee of the Whole to Discuss Potential Repairs and Next Steps for County Ditch #19

Value Stream the request primarily aligns with:

Empower Use of Land, Property, and the Environment

Briefly describe how the request aligns with the selected value stream.

Describe the impact on staffing resources.

To be determined

Fiscal Impact:

To be determined

Background/Justification:

County Ditch #19 (CD 19) located at the outlet of French Lake recently went through a public hearing on the Redetermination of Benefits that was approved by the Drainage Authority and now has been formally adopted after the appeal period. In February of 2024 staff delivered a 3 ringed binder to all commissioner that had information on County Ditch #19. Now that some time has passed for the review of this history regarding CD 19, staff would like to schedule a Ditch Committee of the Whole to get direction on how the Drainage Authority wishes to proceed in regards to past repair request received on this system.

For convenience staff is recommending May 7th, 2024 at 8:00AM prior to the scheduled board meeting.

Action on Ordinance 24-2 Amending the Wright County Code of Ordinance Chapter 155 – Zoning

Short Title (what will appear on Agenda outline – 250 character max.) *

Action on Ordinance 24-2 Amending the Wright County Code of Ordinance Chapter 155 –

Value Stream the request primarily aligns with:

Empower Use of Land, Property, and the Environment

Briefly describe how the request aligns with the selected value stream.

Proposed amendment would potentially allow, with Planning Commission approval of an Interim Use Permit, operation of a non-commercial contractors yard in the R2 – Suburban Residential zoning district.

Describe the impact on staffing resources.

None

Fiscal Impact:

None

Background/Justification:

This proposed amendment was presented through an application by a property owner to amend the ordinance, which currently prohibits non-commercial contractors yards in the R2-Suburban Residential zoning district. The Planning Commission held a public hearing on March 7th and instructed staff to prepare and forward to the Board a resolution denying the proposed amendment. The proposed amendment language, minutes from the Planning Commission hearing, all written comments received, and resolution for denial are attached.

ORDINANCE AMENDMENT NUMBER 24-2

THE COUNTY BOARD OF WRIGHT COUNTY HEREBY ORDAINS:

Article I – Amendment to Chapter 155 Zoning

Sec. 1

§ 155.050 SUBURBAN RESIDENTIAL (R-2).

Amend § 155.050 Suburban Residential (R-2) as follows:

(D) Conditional and interim uses.

(1) Conditional uses.

(a) Essential services - telephone, telegraph, sewer, water, gas and power distribution poles and lines and necessary appurtenant equipment and structures such as transformers, unit substations and equipment houses;

(b) Fire station;

(c) Police station;

(d) Cemeteries;

(e) Subdivisions, a two and one-half acre minimum lot subdivision in areas designated as such in the land use plan;

(f) Township Halls; and

(g) Churches.

(2) Interim uses.

(a) All home occupations;

(b) Any change in agricultural practice that marks an intensification of present agricultural use;

(c) Commercial outdoor recreation;

(d) Seasonal produce stands;

(e) One mobile home per farmstead (necessary to the operation of the farm operation at a minimum floor area of 800 square feet);

(f) Community centers; ~~and~~

(g) Solar energy systems as regulated under § 155.108; and

(h) Non-commercial contractors yards.

Effective Date:

These ordinance amendments shall be effective upon passage and publication.

Darek Vetsch
Chair, Wright County Board of Commissioners

ATTEST:

Lee Kelly
Wright County Administrator

8. YOUSSEF SHEHAB

Petitions a text amendment to the Wright County Code of Ordinances. The proposal is to add the non-commercial contractor's yard use as an interim use to **Section 155.050**, the Suburban Residential (R-2) zoning district.

Present: Youssef Shehab & Jannette Sierra

- A. Rhineberger explained this request is an applicant request for an ordinance amendment to allow non-commercial contractor's yards in the R2-Suburban Residential district. A notice with the new language was sent to all cities and townships within Wright County. Franklin Township, Victor Township, Woodland Township, Clearwater Township, and Monticello Township responded with those documents included in the staff report.
- B. Shehab questioned what the responses were. Rhineberger – some approval and some denial. Monticello Twp. recommends denial, as does Clearwater Twp. Woodland Twp. disapproves, and Victor Twp. stated no concerns with the proposed amendment. Franklin Twp. does not feel there is enough information to make a decision and is indifferent. Shehab – Himself, along with his wife, they are dump truck owners/operators. They have 2 dump trucks and 2 spares that they use. It is difficult to park a dump truck somewhere else, and he owns 7 acres with a tree line and a large area of land. He is applying to be allowed to use part of his land to park his trucks, go to work in the morning, and come home at night. Usually, they leave their home before anyone else is leaving and arrive home after everyone else is home. He is not creating sales and does not have customers at his home. He simply parks his trucks at home 6 months out of the year as he spends half the year in Florida at his auto repair business.
- C. Sierra – from FL and decided to move and raise their family in Minnesota. They are doing what it takes to raise their family and have been very welcomed by the neighbors. They have always asked the neighbors if there are any complaints about what is happening and in the last 3 years have not had any complaints. They do want to follow the law and be legal. Simply asking to be allowed to park the tools they use to work at their home. If they have to park the dump trucks far away, it would take more time away from their family. They work long hours for 8 months, and the rest of the year, the trucks are parked.
- D. Public comment opened.
 - John Bell – adjoining property owner with 10 acres. There are 8 dump trucks and external fuel containers outside of the shed. In 1992, he built his home on 10 acres on a 1-mile-long dead-end road where there are approximately 12 homes in an R-2 residential area. Now, his home is next to a dump truck business in a residential area with employees that come and go. Yes, seasonal, but can the road accommodate the extra traffic? There is more traffic coming and going from the site than the rest of the homes combined. There is noise from the trucks idling, and on cooler nights the exhaust plume comes across the field with a nice diesel order. There are other areas specifically zoned for this type of business. He has environmental concerns with fuel kept in the tanks as well as noise from the trucks. The area is quiet, with no lines on the streets, and where families walk the roads with kids and dogs. He can't imagine property value have not been impacted by the business. Mahlberg – here talking about the specific property and the use that is taking place, which this Commission would hear if the interim use permit (IUP) was even available. Tonight, is about an ordinance change. Questioned if the prospect of operating any yard like this simply could never be in this zoning district or if a case-by-case situation could be appropriate. Bell – feels the Commission should take into account the intended use and purpose of the property that is being zoned. In this case, the property was designed for residential use not commercial use. It would be one thing if the operation was just 2 people, but there are 8 dump trucks with employees.

- Michael Mitchell – lives next door to the Bell family and along the river. Understands the request is for an ordinance change, not specific to this particular parcel. The staff report does a good job outlining the argument for why things are written and why there are rules. The topic of properties being special, rare, and unique is a good example in this specific incident and why things are zoned as they are. This is a dead-end road; parts of the property are in the Wild and Scenic (WS) district. There are huge restrictions to what can and cannot be done along the river and the WS area. When he built his home 30 years ago, he looked into what was permissible or not. They chose to live on a dead-end street, along the Mississippi River and Wild and Scenic area because of the zoning. Staff notes indicate conflicting uses within proximity, and allowing this use as an IUP is not a good idea for the area. He feels the decision should be on a case-by-case basis and individual merits versus a change in the Countywide ordinance.
 - Brian Severson – lives directly across the street from the applicant. The best way to sum up is they have been parking the trucks at the house, and they were notified of a violation because someone did complain. Now they are trying to figure out how to get their trucks to and from work. Eight trucks or two trucks, maybe there is a condition on how many trucks are appropriate and if fuel tanks are allowed. The question that should be presented is if the amendment or conditional use is appropriate.
 - Rosalie Bell – feels the number of trucks makes a difference primarily related to sound and noise. They have tried to do a nice job by cutting in a new driveway. The area has been kept orderly, and that is appreciated. These are big trucks going up and down a township-managed road. What will that do tax-wise and property-wise? People do walk on a road that is now being used as more business than residential. When they built 33 years ago, it was residential, and she feels the area should stay residential. Several years ago, another neighbor tried to open a business and had to move the business to another area, as they were not allowed approval to operate, and their business had less heavy equipment than this business. This is not about a contentious situation of human beings. These are people trying to raise a family and are good people and we are also good people. This is about finding a balance that will work for all involved.
- E. Shehab stated they are the only ones with kids on the road, and they are very careful. The weight of the trucks complies with township road limits. They can certainly cut the number of trucks down. He currently stores trucks for his cousin's business and can cut the number of trucks down to 4. That would then mean no employees coming to the house. He does not sell anything or come in with loaded trucks.
- F. Mahlberg believes if a person has a truck that they use for work, they are not required to get a contractor's yard permit, and a person can choose to drive their work vehicle home. Would there be a violation if, hypothetically, two people were driving their large work trucks to and from work and parking at home overnight, no matter the zoning? Rhineberger – just the vehicles and nothing else, no. Thought would be a commercial vehicle would possibly entertain a different aspect. Mahlberg – a long haul semi driver happens to live in an R-2 district, are they not allowed to park their tractor at home? Rhineberger stated he has not had to address that type of situation, but he would say a daily thing where the tractor is coming and going is different than an over-the-road trucker coming and going sporadically. Kryzer – frequently seen are electricians or plumbing contractors with Class D vehicles that are not considered commercial. Occasionally have dealt with tow trucks, but it is a single tow truck, non-large commercial size tow truck that is being allowed. Mahlberg – vehicle size is not regulated in the definition. Kryzer stated roughly 95% of complaints in residential areas are related to Class D vehicles that someone uses as part of a trade. Rhineberger – one electrical contractor who parks his truck in his garage and doesn't store business-related items outdoors is generally not generating a complaint. If forced, he might need to enforce the ordinance because of how it reads, that type of use is not allowed. Complaints come from the larger vehicles, exterior storage of equipment, noise from those larger vehicles, and activities conducted on-site. Even something as small as a

single truck with a trailer for an electrical contractor, by ordinance, would not be allowed to operate out of a residential-zoned property. It is not uncommon to hear complaints of contractors operating in a residential area. The connotation is if you start with approval in the R-2 district, the Urban/Rural Transition (R-1) is skipped, and Agricultural/Residential (A/R) was not included. If this change is approved, he believes this Commission will see requests coming from all residential zoning districts and can think of 4 that he is sure will step forward that were not allowed to operate and came to the attention of staff from complaints. Kryzer – feels that if this were to be approved, the Commission would see a proliferation of snow removal, landscape, and paving companies popping up all over the county. Mahlberg – to date, the solution has been the removal of commercial equipment or finding an appropriate property to rent or buy.

- G. Felger questioned under what zoning district is a non-commercial contractor's yard allowed. Rhineberger – General AG (AG) only.
- H. Mol – wants to clarify that this request is for an ordinance change, the applicant is not asking for an IUP. This Commission is reviewing a county-wide change, and if the ordinance change is approved, the entire county will be affected. This is not a debate against the dump trucks but looking at a change in ordinance. Shehab – in a meeting with Mr. Rhineberger, he was instructed the next step would be to apply for this request. What he wants is to be able to park his trucks at his home. They have been operating for 3 years with no complaints, and once he allowed his cousin to park his trucks, the complaints came forward. If he were allowed to park his and his wife's truck on-site, he could abide by that condition. Sierra – Mr. Rhineberger stated there is a part of the property that can be used for parking. Rhineberger – displayed Beacon and went on to explain the split zoning of the property. Part of the property is in the Wild & Scenic district (WS), and part is in the R-2. The allowed uses in the WS district cannot be changed, as it is a federal designation and follows federal rules. The only area allowed to be amended is the R-2 area of the property, which would be the only area they would be allowed to operate. This request is about an ordinance amendment and would need to be approved before there is a discussion about where vehicles will be allowed to park.
- I. Holland – from a County Commissioner standpoint, this is a large county with a lot of townships and what this change does is open up a large precedence for the future. Other townships will have a lot of people coming forward asking if they can take their big trucks on roads that might not be able to accommodate them. The debate is not about this specific operation. The debate is related to an ordinance change. Shebab – wants to keep R-2 and scenic. He simply wants to be allowed to park 2 trucks on his property. Holland – if in another zoning district, the operation would be allowed. Shebab stated he is looking for an industrial lot, which is not an easy process. Holland stated that even if this request is approved here, she is not sure it will pass the next board's review.
- J. Mol – this request is not about the specific owner; it is a county-wide ordinance change. The ordinance needs to be changed before there is any discussion related to the parking of trucks. To change the ordinance for the entire county, there are a lot of residential areas to be considered. If the applicant had purchased 10 acres in AG zoning, the operation would probably be approved for an IUP, but the unfortunate fact is the property is zoned residential, and this type of use is not allowed. The debate tonight is around an ordinance change, not the operation of the existing business. This Commission has quite a bit of discussion when an issue affects the entire county, and that is what this amendment would do.
- K. Kryzer stated he is hearing the Commission leaning towards a recommendation of denial for ordinance amendment 24-2 to the County Board of Commissioners. If that is the case, he has a proposed motion drafted that would be to close the public hearing to further oral and written comments and direct staff to draft a resolution with findings consistent with the denial of ordinance amendment 24-2 and direct the proposed findings and resolution to the Wright County Board of Commissioners along with the record to date.

- L. Mahlberg questioned if Rhineberger would be present to discuss with the County Board. To him, this is a decision related to who can come to ask for what. He is more than happy to hear an IUP request in the R-2 district and review the specifics of the operation. He does not feel in this circumstance, as one member of the Planning Commission, he has a factual basis or knowledge to advise the County Commissioners. Mol – a past County Commissioner who served on this Commission was involved in a situation where the Planning Commission recommended denial, and that Commissioner did not agree with the decision and went the other way, and the County Board approved. The Planning Commission members were a little frustrated, but in the end, the County Commissioners have the final say, and this is strictly a recommendation. Mahlberg – he does not want the County Commissioners thinking, on this issue, that he has any expertise. He may have more experience related to Planning Commission items and zoning issues, but on this issue, he feels County Commissioners might not have the same approach as the past delegate and may look at this Planning Commission as experts. Holland – feels current County Commissioners will dig deep and ask the opinion of Kryzer and Rhineberger.
- M. Thompson motioned to close the public hearing to further oral and written comments and direct staff to draft a resolution with findings consistent with the denial of ordinance amendment 24-2 and direct the proposed findings and resolution be direction to the Wright County Board of Commissioners along with the record to date. Seconded by Felger.

DISCUSSION: Kryzer stated the Planning Commission can provide a neutral response to the County Board. Mahlberg stated his stance would be to provide a neutral response instead of an approval or denial. He does not want the County Commissioners to think he knows enough on this issue to direct them in what should be decided. Felger – would debate that comment. His feeling is that member Mahlberg has sat on this Commission for several years now and through that time has seen quite a bit, and the County Board does listen to what is said. Mahlberg – what he is saying is that, on these issues related to broader policies and ordinance changes, it should be the County Board deciding. Where he sits, this Commission is to review the requests for IUPs, rezoning, and review items on a case-by-case basis. The issue of whether this is good to open up on a county-wide basis is what the County Board is good at reviewing and what they work through daily. Felger – they hold the expertise. Mahlberg – confirmed, and that is why he holds a neutral position.

Bravinder – the applicant is just doing as guided by staff. If here for an IUP with 2 trucks and related conditions, he could possibly go along with approving an IUP. He would never support this ordinance change because he can see the ramifications of what a change like this would do. Many people would take advantage and not be concerned for neighbors. As it stands, he is not in favor of the ordinance amendment. The use came to light due to the increase in truck traffic and complaints. Mahlberg – feels what was said is important. The comment stated that if he could give this situation their day, he would do so but then went on to say the ordinance should not be changed. Only by changing the ordinance can they be given the chance to be heard. He can't tell if member Bravinder is saying he wants to have the chance to consider a case like this on a fact-by-fact basis or not. Bravinder – exactly. According to the current code, this property cannot have a contractor's yard, and the gray area for him is driving the vehicle home from work. Counsel spoke of the common work vehicles being Class D, and his opinion is the type of vehicle might be dependent on location. He is not struggling with the change in the ordinance. He is struggling with the fact that this Commission should be having these tough discussions on IUPs and what can be allowed. Mahlberg – by saying no to changing the ordinance that is saying no to any discussion. Bravinder – if the ordinance is changed and the applicant is required to come before the Commission, what would be the criteria for offering the IUPs? Mahlberg – CUP or IUP standards with options to place conditions. If the ordinance is not changed, this Commission will not hear because it is not an allowed use as IUP or CUP. Bravinder – if an item came to this Commission in the R-2 district, and in reviewing, it was determined the location doesn't fit, then there is the ability to deny. After the discussion, he might rethink his view of the ordinance change because he does trust this Commission to review an IUP that might be presented if the ordinance change occurs.

Thompson stated this might be a topic better suited for a workshop. Believes discussion needs to occur but also believes back-and-forth conversations are not appropriate. Mol – respectfully disagrees. Feels this Commission is doing what they need to do by discussing and debating. Whether this takes 10 minutes, an hour, or two the decision will be hammered out and what he, as Chairman, is trying to direct. If there are Commission members respectfully going back and forth, he is going to allow continued discussion and debate. Other members will be allowed to speak and discuss as well. This is the same process that can occur with any item that comes before this Commission. No matter the recommendation from this Commission, at the end of the day the County Commissioners have the final say.

Felger – feels an ordinance change, of any kind, that affects the entire county will last forever or until changed again. Many times, contractor yards start small and tend to expand well beyond what this Commission allows. His feeling is this is too broad of an ordinance change. How many more individuals will come up in this particular zoning district? He feels the requests will mushroom. He cannot support this ordinance change.

Mol called for a vote.

Mahlberg asked for clarification on the motion. Kryzer recommended staff to draft a resolution, which will include some findings and present directly to the County Board of Commissioners, not coming back to the Planning Commission. Rhineberger stated he would be present at the County Board meeting and available to address questions asked by the Commissioners. What was included in the staff report, along with tonight's meetings, will be included in what is provided to the County Board.

Mol called for a vote.

VOTE: Holland, Mol, Thompson, Felger ABSTAINED: Mahlberg & Bravinder

MOTION CARRIED

Kryzer addressed the application and advised public hearing is closed and that the County Board should be hearing the item at the April 2nd County Board meeting.

SITE INSPECTION

Commission scheduled a site inspection date for Monday, April 1st, with the Commission to meet at 8:30 a.m. at the Government Center.

Meeting adjourned at 10:50 p.m.

Respectfully submitted,

Barry Rhineberger
Planning & Zoning Administrator

8. YOUSSEF SHEHAB

Petitions a text amendment to the Wright County Code of Ordinances. The proposal is to add the non-commercial contractor's yard use as an interim use to **Section 155.050**, the Suburban Residential (R-2) zoning district.

SUMMARY – The requested ordinance amendment was initiated by a complaint made to Monticello Township regarding the operation of a non-commercial contractor's yard, specifically dump trucks, being based out of a property in a residential subdivision. The property related to this request is split zoned WS-Wild and Scenic River District and R2-Suburban Residential, where such a use is prohibited. The applicant was sent notice of the violation and is requesting an ordinance amendment to allow non-commercial contractor's yards in the R2-Suburban Residential district. It should be noted that the WS district is a federal designation that limits uses, requiring the County Ordinance to be at least as restrictive. The uses allowed in that specific district cannot be amended.

Contractor's yards were added to the ordinance in 1995 as a conditional use in the AG zone. The definition was changed in 1998 to non-commercial contractor's yards and are now defined as "buildings and structures, including limited outdoor storage, located on the homestead of a contractor in the building trades or other similar business, for the purpose of storing machinery and equipment related to the business which is primarily conducted off-site. All storage and screening requirements in §§ 155.076 through 155.079 of this chapter must be met, all building size requirements must be met and the use must be clearly incidental to the primary use of the property as a homestead." The intent of this was to allow contractors to operate from their homesteaded properties but were limited to the AG zoning district. Uses that would qualify and have been heard by this Commission since 1995 range from small, one person construction contractors to large-scale landscaping or other types of contractors with a significant amount of equipment and numerous employees.

This amendment would allow for uses on properties that are intended primarily for residential use, not business uses. This district currently prohibits any business activity directly associated with a residence that is outside the home. The R2 district is also primarily located and developed to accommodate platted subdivisions with many lots being created within a small area. The lots within these developments typically have limited direct access to highways, with smaller streets providing access to the majority of the lots. Due to this, the type of use being proposed in a residential district encourages incompatible uses in close proximity to each other, leading to nuisance complaints regarding those uses, which was the case for this applicant.

As an ordinance amendment, staff will be looking for guidance from the Commission regarding the recommendation to the County Board.

ORDINANCE AMENDMENT NUMBER 24-2

THE COUNTY BOARD OF WRIGHT COUNTY HEREBY ORDAINS:

Article I – Amendment to Chapter 155 Zoning

Sec. 1

§ 155.050 SUBURBAN RESIDENTIAL (R-2).

Amend § 155.050 Suburban Residential (R-2) as follows:

(D) Conditional and interim uses.

(1) Conditional uses.

(a) Essential services - telephone, telegraph, sewer, water, gas and power distribution poles and lines and necessary appurtenant equipment and structures such as transformers, unit substations and equipment houses;

(b) Fire station;

(c) Police station;

(d) Cemeteries;

(e) Subdivisions, a two and one-half acre minimum lot subdivision in areas designated as such in the land use plan;

(f) Township Halls; and

(g) Churches.

(2) Interim uses.

(a) All home occupations;

(b) Any change in agricultural practice that marks an intensification of present agricultural use;

(c) Commercial outdoor recreation;

(d) Seasonal produce stands;

(e) One mobile home per farmstead (necessary to the operation of the farm operation at a minimum floor area of 800 square feet);

(f) Community centers; ~~and~~

(g) Solar energy systems as regulated under § 155.108; and

(h) Non-commercial contractors yards.

Effective Date:

These ordinance amendments shall be effective upon passage and publication.

CITY/TOWNSHIP RESPONSE FORM

CITY/TOWNSHIP: Monticello Township

HEARING DATE: **Thursday, March 7, 2024
at 6:30 p.m.**

YOUSSEF SHEHAB

Petitions a text amendment to the Wright County Code of Ordinances. The proposal is to add the non-commercial contractor's yard use as an interim use to **Section 155.050**, the Suburban Residential (R-2) zoning district.

NOTES: Currently, non-commercial contractor's yards are only listed as an interim use in the General Agriculture (AG) zoning district and are prohibited in all other zoning districts.

* * * *

THE TOWN BOARD OR CITY COUNCIL SHOULD COMPLETE THE FOLLOWING. IF NO WRITTEN RESPONSE IS RECEIVED BEFORE THE HEARING, THE PLANNING COMMISSION WILL ASSUME THAT THE CITY COUNCIL/TOWN BOARD HAS NO OBJECTION TO THE PROPOSED AMENDMENTS.

 TOWNSHIP/CITY COUNCIL APPROVES OF THE REQUEST BECAUSE:

X TOWNSHIP/CITY COUNCIL DISAPPROVES OF THE REQUEST BECAUSE: Non-commercial contractor's yards are prohibited in all districts except General Ag zoning district (allowed interim use). This petition was made by a county resident that is running a contractor's yard business on a property that is zoned Suburban Residential (R-2) and complaints have been received from neighboring properties.

 TOWNSHIP/CITY COUNCIL COMMENTS OR PROPOSED CONDITIONS:

Monticello Township Chair Brett Holker reviewed the request for this ordinance amendment at the March 20, 2024 board meeting. Several board members commented on the impact this could have, if adopted, as it would affect the entire county. Currently, non-commercial contractor's yards are only allowed as an interim use in the General Agriculture (AG) zoning district and prohibited in all other zoning districts. John Bell (13633 Acacia Av NE) asked to make a comment regarding an agenda item from earlier in the meeting. He pointed out that it was interesting to hear from that person who was seeking an IUP for a non-commercial contractor's yard in an Ag zoning district where that use is allowed. He feels that the property owner in his neighborhood, running a contractor's yard in a prohibited zoning district, should have to move out of the residential area to an area that is more suited for that type of business. A motion was unanimously approved by the Board to recommend disapproval of the petition for a proposed ordinance amendment to add non-commercial contractor's yard as an interim use in the Suburban Residential (R-2) zoning district.

The following reasons were given in support of the recommendation for disapproval:

- Non-commercial contractor's yard use does not fit on a small lot in a residential zoning district.
- This type of business is disruptive to owners of neighboring lots and creates traffic that is not usually found in a residential development.
- Non-commercial contractor's yard use is only allowed in Gen Ag zoning, which limits and controls the conduct of those type of businesses.

It was also noted by the Board that the property owner that initiated the petition to Wright County resides in Monticello Township. In addition to conducting a prohibited contractor business on his property, he added a second driveway without a permit and did not get the location approved.

SIGNED: Cathy Shuman, Clerk 2/29/24 on behalf of the Monticello Town Board

**RESOLUTION AND ORDER FOR DENIAL OF
ORDINANCE AMENDMENT NUMBER 24-2
A PROPOSED AMENDMENT TO ORDINANCE 155.050 (R-2).**

WHEREAS the Wright County Office of Planning and Zoning received an application from a member of the public to amend Wright County Ordinance 155.050 by proposing to add a Non-Commercial Contractors Yard as an interim use in the R-2 Suburban Residential zoning district;

WHEREAS all written comments and notices are on file with the Wright County Office of Planning and Zoning;

WHEREAS the proposed amendment was assigned ordinance number 24-2 and was given a public hearing before the Wright County Planning Commission on March 7, 2024;

WHEREAS the Planning Commission reviewed the requested amendment and recommended Ordinance Number 24-2 be denied; and

WHEREAS the Wright County Board of Commissioners has reviewed the record compiled in this matter and finds that this proposed use would conflict with the land use plan and the residential nature of the R-2 Suburban Residential District;

NOW THEREFORE BE IT RESOLVED that Ordinance Amendment Number 24-2 as presented conflicts with the land use plan and the residential nature of the R-2 Suburban Residential Zoning District;

BE IT FURTHER RESOLVED AND ORDERED that Ordinance Amendment Number 24-2 is, same shall be, **DENIED**; and

BE IT FURTHER ORDERED that the Wright County Zoning Administrator shall provide a copy of this resolution to the applicant.

**CLEARWATER ECONOMIC DEVELOPMENT AUTHORITY
WRIGHT AND STEARNS COUNTIES, MINNESOTA**

**RESOLUTION 2024-01
RESOLUTION REQUESTING CONTINUED FUNDING FOR THE
WRIGHT COUNTY ECONOMIC DEVELOPMENT PARTNERSHIP**

WHEREAS, the Wright County Economic Development Partnership (the "Partnership") is a non-profit agency with over 30 years of service to Wright County, its communities, and its businesses; and,

WHEREAS, the Partnership brings together resources and contributions from many sectors of the County – businesses, communities, non-profits, utility providers, Chambers of Commerce, school districts, townships, cities, and County government itself – around the purpose of creating employment opportunities and enhancing overall economic vitality; and,

WHEREAS, the Partnership fulfills its mission by providing technical and financial assistance to businesses in Wright County and those looking to locate to Wright County. The Partnership also provides economic development assistance to the cities and townships; and,

WHEREAS, a significant value provided by the Partnership is the powerful, partnership-orientated approach of all its activities. The collaborative nature of networking opportunities, information sharing, and problem solving provide direct and indirect impacts on the vitality of our County; and,

WHEREAS, investing in the Partnership provides the opportunity to expand employment opportunities and increase the tax base, which has economic benefits for the entire County; and,

WHEREAS, a failure by Wright County to continue its funding for the Partnership would have significant consequences on the ability of the organization to continue meeting its purpose and providing its services in Wright County.

NOW, THEREFORE, BE IT RESOLVED BY THE CLEARWATER EDA, CLEARWATER, MINNESOTA that the Clearwater EDA requests that the Wright County Board of Directors approve the 2024 funding request from the Wright County Economic Development Partnership in order to support its ongoing collaborative efforts to assist businesses, cities, townships, and the County in creating employment opportunities and enhancing overall economic vitality.

Adopted by the Clearwater EDA this 19th day of March, 2024.

Resolution R-24-09

RESOLUTION REQUESTING CONTINUED FUNDING FOR THE
WRIGHT COUNTY ECONOMIC DEVELOPMENT PARTNERSHIP

WHEREAS, the Wright County Economic Development Partnership (the "Partnership") is a non-profit agency with over 30 years of service to Wright County, its communities, and its businesses; and,

WHEREAS, the Partnership brings together resources and contributions from many sectors of the County – businesses, communities, non-profits, utility providers, Chambers of Commerce, school districts, townships, cities, and County government itself – around the purpose of creating employment opportunities and enhancing overall economic vitality; and,

WHEREAS, the Partnership fulfills its mission by providing technical and financial assistance to businesses in Wright County and those looking to locate to Wright County. The Partnership also provides economic development assistance to the cities and townships; and,

WHEREAS, a significant value provided by the Partnership is the powerful, partnership-orientated approach of all its activities. The collaborative nature of networking opportunities, information sharing, and problem solving provide direct and indirect impacts on the vitality of our County; and,

WHEREAS, investing in the Partnership provides the opportunity to expand employment opportunities and increase the tax base, which has economic benefits for the entire County; and,

WHEREAS, a failure by Wright County to continue its funding for the Partnership would have significant consequences on the ability of the organization to continue meeting its purpose and providing its services in Wright County.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DELANO that the City requests that the Wright County Board of Directors approve the 2024 funding request from the Wright County Economic Development Partnership in order to support its ongoing collaborative efforts to assist businesses, cities, townships, and the County in creating employment opportunities and enhancing overall economic vitality.

Adopted by the City Council of the City of Delano this 2nd day of April, 2024.

Business Retention and Expansion (BRE)

- BRE is a top focus for WCEDP, supporting economic development needs to all Wright County businesses.
- Since January 2021, 29 businesses have been visited. The visits have included some of the largest employers such as Cargill, JB, Forsman Farms and Dura Supreme.
- Many of these visits involve area city, county and chamber representation, it is necessary to have great coordination with the other collaborators

Economic Development Partner Collaboration

MN Department of Economic Development and Employment Department (MN DEED)

- MN DEED Manufacturing Month collaboration with 8 businesses and appreciation events with 4+ communities.
- \$600,000-MN DEED Child Care Economic Development Grant Application for 2 start-ups, 2 expansions and reimbursement for providers training, licensing, regulatory expenses.
- Ongoing conversations regarding development projects and requests for information regarding Wright County sites

Initiative Foundation

- 2 - \$5,000-MN Department of Education/Initiative Foundation Grants awarded for 1st Aid/CPR for Wright County licensed Childcare Providers
- 2 - \$10,000 Initiative Foundation Grants awarded to WCEDP for Workforce Pathways initiative.

City assistance

- Ongoing collaboration with Cities and the Private Sector by hosting bi-annual City Administrator and Economic Development staff meetings.
- Letters of Support when requested for individual city projects
- Lobbying to MN Legislators for Wright County needs regarding MN Investment Fund/Job Creation Fund/Transportation Economic Development Infrastructure/ Greater MN Business Development Public Infrastructure Grant Program/Shovel Ready Site Certification/ Redevelopment Grant Program/Office of Broadband Development/MN DEED Energy Transition Office/Small Cities Development Program/Demolition Loan Program and more.

Small Business Development Center (SBDC) Collaboration

- Consultation contracts with 62 industrial and small businesses from 2012-2019
- Since August of 2023, referred and stayed in contact with 24 start-ups businesses.
- Brought SBDC pilot office to Wright County Government Center for joint consultation.

CEO Class has provided entrepreneurial experiences for 9 years to over 9 school districts.

- 110 students have completed the course with 25 preregistered for the 24-25 school year.
- Of these 110 students, 16 have continued operation of their businesses serving Wright County.
- The class is supported by 76 regional private sector businesses.

CMJTS & MN DEED-Careerforce

- Partnered in hosting 19 Central MN Annual Career Fairs. With an estimated 950 businesses engaged in career fairs and estimated 4,000 job seekers in search for Wright County Employment
- Business referrals for employee sourcing, development, and retention services.

Representatives from each of these collaborating Organizations and more have presented for multiple capacity building seminars/learning luncheons

Membership/Partners

Member involvement to foster regional economic growth and recruitment of corporations with MAPCED, EDAM, GreaterMSP, SCORE, SBDC, Wright County Chamber Summits, Initiative Foundation, First Children's Finance, Maple Lake Industrial Development Group, Monticello Industrial Development Group, Delano Industrial Economic Development Group, Montrose EDA, Waverly EDA, Cokato EDA, Clearwater EDA, & St. Michael EDA.

Throughout 30 years the Partnership has had 229 members including

- 16 Cities & 4 Townships from the public sector
- 25 Financial Institutions and/or banks
- 10 Utilities including telecommunications
- 174 large and small private sector businesses

Since 2020 WCEDP has gained 23 new Partners

- 2 cities have returned, Howard Lake & Buffalo
- 4 banks- Sentry, Kensington, North Star, & Bravera
- 16 private sector businesses
- 1 college - Ridgewater College

Other Economic Development Work

COVID Loans & Support

Through 2020 - 2021 WCEDP extra support for the following

- Provided COVID loans totaling \$30,000 supporting 6 Wright County businesses
- Provided assistance to 10 Townships with retrieval of SWIFT & DUNS numbers to file for CARES Grants
- Assisted 120 small businesses & 29 non-profit organizations with applications for COVID Grants
- Hosted bi-monthly chamber summits supporting all Wright County chambers with ongoing questions to support their members.

Enterprise Loan Fund - RLF 1997 - 2015 - \$987,150 (in 2024 dollars)

- Supported 13 businesses with Enterprise Loan Funds
- In output (sales), the loans supported **\$1.3 million** in economic activity (2024 dollars).
- Supported **\$332,300** in labor income (or money into the pockets of local residents).

The economic contribution was calculated using the input-output model IMPLAN and the Type SAM multiplier. Information provided by Brigid Tuck, Senior Economic Impact Analyst with University of Minnesota Extension

Workforce Development - Workforce Pathways

Workforce Pathways Wheel - Digital Tool

- Combines access to Wright County resources for families, students, businesses, & schools.
- Received 200,000 + views since June 2021 upon creation of the wheel that promotes Wright County and all business markets.
- Presented Wright County "Quality of Life" presentation to over 1800 Students from 7th -12th grades within the 9 Wright County school districts.

WCEDP Mission:

Create a healthy and diverse environment for existing, expanding, and new businesses- which in turn creates employment opportunities and enhances the overall economic vitality of the region thereby benefiting the businesses, communities, and citizens of Wright County.

WCEDP fulfills its mission by providing technical and financial assistance to businesses in Wright County and those looking to locate in Wright County. WCEDP has been working with Wright County to improve economic development since 1993. The Partnership also provides economic development assistance to the 16 communities and numerous Townships.

Current EDP Priorities:

- Business Retention & Expansion
- Grant Application Opportunities
- Small City Assistance
- Entrepreneurship Development Assistance
- Career Development & Job Training
- Site Selection/Promotion
- County Wide Marketing
- Financial Packaging
- Capacity Building Seminars

The Wright County Economic Development Partnership values the County's partnership over the past 30 years in providing regional economic development in Wright County.

WCEDP is willing to work with the Wright County Board of Commissioners to establish a process to ensure WCEDP's priorities are aligned with the priorities of the Wright County Board of Commissioners.
